Statement of Responsibility for the Statement of Accounts

The Council's Responsibilities

Crawley Borough Council is required:

- * to make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Council, that officer is the Head of Corporate Finance.
- * to manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- * to approve the Statement of Accounts.

Responsibilities of the Head of Corporate Finance

The Head of Corporate Finance is responsible for the preparation of the Council's statement of accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom ("the Code")

In preparing this statement of accounts, the Head of Corporate Finance has:

- * selected suitable accounting policies and then applied them consistently;
- * made judgements and estimates that were reasonable and prudent;
- * complied with the local authority Code.

The Head of Corporate Finance is also responsible for:-

- * keeping proper accounting records which are up-to-date;
- * taking responsible steps for the prevention and detection of fraud and other irregularities.

I hereby certify that the Statement of Accounts presents a true and fair view of the financial position of the authority at the reporting date and its income and expenditure for the year ended 31st March 2020. This is a replacement of the one signed on 3rd June, 2020.

Karen Hayes Head of Corporate Finance Date: 2nd March 2021

Member Sign Off

I certify that these accounts were approved by the Audit Committee under delegated powers at a meeting held on 22nd September 2020.

Councillor Jennifer Millar-Smith Chair of the Audit Committee

Date: 2nd March 2021

Independent Auditor's Report to the Members of Crawley Borough Council

Opinion

We have audited the financial statements of Crawley Borough Council for the year ended 31 March 2020 under the Local Audit and Accountability Act 2014. The financial statements comprise the:

- Comprehensive Income and Expenditure Statement,
- · Movement in Reserves Statement,
- Balance Sheet,
- Cash Flow Statement.
- Housing Revenue Account
- · Collection Fund, and
- The related notes 1 to 43 of the Authority's main Financial Statements; note 1-8 of the Housing Revenue Account; and notes 1 to 3 of the Collection Fund.

The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20.

In our opinion the financial statements:

- give a true and fair view of the financial position of Crawley Borough Council as at 31 March 2020 and of its expenditure and income for the year then ended; and
- have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the Authority in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and the Comptroller and Auditor General's (C&AG) AGN01, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Head of Corporate Finance (S151 Officer)'s use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Head of Corporate Finance (S151 Officer) has not disclosed in the financial statements any
 identified material uncertainties that may cast significant doubt about the Authority's ability to
 continue to adopt the going concern basis of accounting for a period of at least twelve months from
 the date when the financial statements are authorised for issue.

Independent Auditor's Report to the Members of Crawley Borough Council (Continued)

Other information

The other information comprises the information included in the Statement of Accounts, other than the financial statements and our auditor's report thereon. The Head of Corporate Finance (S151 Officer) is responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matters prescribed by the Local Audit and Accountability Act 2014

Arrangements to secure economy, efficiency and effectiveness in the use of resources

In our opinion, based on the work undertaken in the course of the audit, having regard to the guidance issued by the Comptroller and Auditor General (C&AG) in November 2017, we are satisfied that, in all significant respects, Crawley Borough Council put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2020.

Matters on which we report by exception

We report to you if:

- in our opinion the annual governance statement is misleading or inconsistent with other information forthcoming from the audit or our knowledge of the Council;
- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014;
- we make written recommendations to the audited body under Section 24 of the Local Audit and Accountability Act 2014;
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014;
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014; or
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014.

We have nothing to report in these respects

Responsibility of the Head of Corporate Finance (\$151 Officer)

As explained more fully in the Statement of Responsibilities set out on page 16, the Head of Corporate Finance (S151 Officer) is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20, and for being satisfied that they give a true and fair view.

Independent Auditor's Report to the Members of Crawley Borough Council (Continued)

In preparing the financial statements, the Head of Corporate Finance (S151 Office) is responsible for assessing the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Authority either intends to cease operations, or have no realistic alternative but to do so.

The Authority is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Scope of the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criterion issued by the Comptroller and Auditor General (C&AG) in November 2017, as to whether the Crawley Borough Council had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. The Comptroller and Auditor General determined this criterion as that necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether Crawley Borough Council put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2020.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, Crawley Borough Council had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the National Audit Office (NAO) requires us to report to you our conclusion relating to proper arrangements.

We report if significant matters have come to our attention which prevent us from concluding that the Authority has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Independent Auditor's Report to the Members of Crawley Borough Council (Continued)

Certificate

We certify that we have completed the audit of the accounts of Crawley Borough Council in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice issued by the National Audit Office.

Use of our report

This report is made solely to the members of Crawley Borough Council, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 and for no other purpose, as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Crawley Borough Council and Crawley Borough Council's members as a body, for our audit work, for this report, or for the opinions we have formed.

Andrew Brittain (Key Audit Partner) Ernst & Young LLP (Local Auditor) Reading 5 March 2021

The maintenance and integrity of the Crawley Borough Council web site is the responsibility of the directors; the work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the web site. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Expenditure and Funding Analysis

The Expenditure and Funding Analysis is not a primary financial statement. It shows how annual expenditure is used and funded from resources (government grants, rents, council tax and business rates) by local authorities in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between the Council's services. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

Comprehensive Income and Expenditure Statement

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

Movement in Reserves Statement

Details of Movement in Reserves in the year

This statement shows the movement in the year on the different reserves held by Crawley Borough Council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the Council's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance and the Housing Revenue Account for council tax setting and dwellings rent setting purposes. The Net Increase/Decrease before Transfers to Earmarked Reserves line shows the statutory General Fund Balance and Housing Revenue Account Balance before any discretionary transfers to or from earmarked reserves undertaken by the Council.

	General Fund Balance £'000	Housing Revenue Account £'000	Capital Receipts Reserve £'000	Major Repairs Reserve £'000	Capital Grants Unapplied £'000	Total Usable Reserves £'000	Unusable Reserves £'000	Total Authority Reserves £'000

Balance Sheet

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by Crawley Borough Council. The net assets of the Council (assets less liabilities) are matched by the reserves held by the Council. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Council is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents of Crawley Borough Council during the reporting period. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Council.

2018/19 £'000		2019/20 £'000
47	Net surplus/(deficit) on the provision of services	(16,191)
37,418	Adjustments to net surplus or deficit on the provision of services for non-cash movement (Note 26)	44,617

1. Accounting Policies

i. General Principles

The Statement of Accounts summarises the Crawley Borough Council's transactions for the 2019/20 financial year and its position at the year-end of 31 March 2020. The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2015, which those Regulations require to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20, supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments. The Statement of Accounts has been prepared on a 'going-concern' basis.

ii. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from contracts with service recipients, whether for services or the provision
 of goods, is recognised when (or as) the goods or services are transferred to the
 service recipient in accordance with the performance obligations in the contract.
- Supplies are recorded as expenditure when they are consumed where there is a
 gap between the date supplies are received and their consumption, they are carried
 as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

iii. Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

iv. Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

v. Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:

- depreciation attributable to the assets used by the relevant service
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off
- amortisation of intangible fixed assets attributable to the service.

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisations. Depreciation, revaluation and impairment losses and amortisations are therefore replaced by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement.

vi. Council Tax and Non-Domestic Rates

Billing authorities act as agents, collecting council tax and non-domestic rates (NDR) on behalf of the major preceptors (including government for NDR) and, as principals, collecting council tax and NDR for themselves. Billing authorities are required by statute to maintain a separate fund (i.e. the Collection Fund) for the collection and distribution of amounts due in respect of council tax and NDR. Under the legislative framework for the Collection Fund, billing authorities, major preceptors and central government share proportionately the risks and rewards that the amount of council tax and NDR collected could be less or more than predicted.

Accounting for Council Tax and NDR

The council tax and NDR income included in the Comprehensive Income and Expenditure Statement (CIES) is the Council's share of accrued income for the year. However, regulations determine the amount of council tax and NDR that must be included in the Council's General Fund. Therefore, the difference between the income included in the CIES and the amount required by regulation to be credited to the General Fund is taken to the Collection Fund

Adjustment Account and included as a reconciling item in the Movement in Reserves Statement.

The Balance Sheet includes the Councils share of the end of year balances in respect of council tax and NDR relating to arrears, impairment allowance for doubtful debts, overpayments and prepayments and appeals.

Where debtor balances for the above are identified as impaired because of a likelihood arising from a past event that payments due under the statutory arrangements will not be made (fixed or determinable payments), the asset is written down and a charge made to the Collection Fund. The impairment loss is measured as the difference between the carrying amount and the revised future cash flows.

vii. Employee Benefits

Benefits Payable During Employment

Short-term employee benefits are those due to be settled wholly within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Council. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday entitlements are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits and are charged on an accruals basis to the appropriate service or, where applicable, to a corporate service segment at the earlier of when the Council can no longer withdraw the offer of those benefits or when the Council recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post Employment Benefits

Employees of the Council are members of the Local Government Pensions Scheme, administered by West Sussex County Council.

This scheme provides defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Council.

The Local Government Pension Scheme

The Local Government Scheme is accounted for as a defined benefits scheme:

- The liabilities of the West Sussex pension fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc., and projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate of 3.5% (based on the indicative rate of return on high quality corporate bond, the iBoxx AA corporate bonds index).
- The assets of West Sussex pension fund attributable to the Council are included in the Balance Sheet at their fair value:
 - quoted securities current bid price
 - unquoted securities- professional estimate
 - unitised securities- current bid price
 - property market value.

The change in the net pensions liability is analysed into the following components:

- Service cost comprising:
 - current service cost the increase in liabilities as a result of years of service earned this year - allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked
 - past service cost the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years - debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement
 - net interest on the net defined benefit liability (asset), i.e. net interest expense for the Council – the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.
- Remeasurements comprising:
 - the return on plan assets excluding amounts included in net interest on the net defined benefit liability (asset) – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure
 - actuarial gains and losses changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or

because the actuaries have updated their assumptions – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.

 Contributions paid to the West Sussex pension fund - cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund Balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

viii. Events After the Reporting Period

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period
 the Statement of Accounts is adjusted to reflect such events
- those that are indicative of conditions that arose after the reporting period the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

ix. Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the CIES is the amount payable for the year according to the loan agreement.

Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cashflow characteristics. There are three main classes of financial assets measured at:

- · amortised cost
- fair value through profit or loss (FVPL), and
- fair value through other comprehensive income (FVOCI)

The Councils business model is to hold investments to collect contractual cash flows, financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest.

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the Council, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the CIES is the amount receivable for the year in the loan agreement.

Any gains and losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

Expected Credit Loss Model

The Council recognises expected credit losses on all of its financial assets held at amortised cost or FVOCI, either on as 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the authority.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. When risk has increased significantly since an instrument was initially recognised, losses are assessed on lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

Financial Assets Measured at Fair Value through Other Comprehensive Income

Financial assets that are measured at FVOCI are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arise in other comprehensive income.

Financial Assets Measured at Fair Value through Profit or Loss

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the provision of Services.

Fair Value Measurements of financial assets

Fair value of an asset is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The fair value measurements of the financial assets are based on the following techniques:

- instruments with quoted market prices the market price
- other instruments with fixed and determinable payments discounted cash flow analysis.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- Level 1 inputs quoted prices (unadjusted) in active markets for identical assets that the Council can access at the measurement date.
- Level 2 inputs inputs other than quoted prices included within Level 1 that are observable for the asset, either directly and indirectly.
- Level 3 inputs unobservable inputs for the asset.

Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

Instruments Entered Into Before 1 April 2006

The Council entered into a number of financial guarantees that are not required to be accounted for as financial instruments. These guarantees are reflected in the Statement of Accounts to the extent that provisions might be required or a contingent liability note is needed under the policies set out in the section on Provisions, Contingent Liabilities and Contingent Assets.

x. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset in the form of the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ring fenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied Reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Business Improvement District

A Business Improvement District (BID) scheme applies in Manor Royal. The scheme is funded by a BID levy paid by non-domestic ratepayers. The Council acts as agent under the scheme, and does not show income or expenditure within the Comprehensive Income and Expenditure Statement.

Community Infrastructure Levy

The Council has elected to charge a Community Infrastructure Levy (CIL). The levy will be charged on new builds (chargeable developments for the Council) with appropriate planning consent. The Council charges for and collects the levy, which is a planning charge. The income from the levy will be used to fund a number of infrastructure projects to support the development of the area.

CIL is received without outstanding conditions; it is therefore recognised at the commencement date of the chargeable development in the Comprehensive Income and Expenditure Statement in accordance with the accounting policy for government grants and contributions set out above. CIL charges will be largely used to fund capital expenditure. However, a small proportion of charges may be used to fund revenue expenditure.

xi. Heritage Assets

Heritage Assets are recognised and measured (including the treatment of revaluation gains and losses) in accordance with the Council's accounting policies on property, plant and equipment. However, some of the measurement rules are relaxed in relation to heritage assets and described below. The council's collections of heritage assets are accounted for as follows:

Public Works of Art – the Council considers that obtaining valuations for the vast
majority of public works of art would involve a disproportionate cost in comparison to the
benefits to the users of the council's financial statements. This is because of the unique
nature of the assets held and the lack of comparable values. Other than the small
number of items that have been acquired recently, the Council does not recognise this
collection of heritage assets on the Balance sheet.

The carrying amounts of heritage assets are reviewed where there is evidence of impairment for heritage assets, e.g. where an item has suffered physical deterioration or breakage or where doubts arise as to its authenticity. Any impairment is recognised and measured in accordance with the council's general policies on impairment – see note xvi in this summary of significant accounting policies.

xii. Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible and is intended to be completed (with adequate resources being available) and the Council will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset. Expenditure is capitalised where it can be measured reliably as attributable to the asset and is restricted to that incurred during the development phase (research expenditure cannot be capitalised).

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Council's goods or services.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Council can be determined by reference to an active market. In practice, no intangible asset held by the Council meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired - any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

xiii. Investment Property

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, being the price that would be received to sell such an asset in an orderly transaction between market participants at the measurement date. As a non-financial asset, investment properties are measured at highest and best use. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

xiv. Joint Operations

Joint operations are arrangements where the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities relating to the arrangement. The activities undertaken by the Council in conjunction with other joint operators involve the use of the assets and resources of those joint operators. In relation to its interest in a joint operation, the Council as a joint operator recognises:

- Its assets, including its share of any assets held jointly
- · Its liabilities, including its share of any liabilities incurred jointly
- Its revenue from the sale of its share of the output arising from the joint operation
- Its share of the revenue from the sale of the output by the joint operation
- Its expenses, including its share of any expenses incurred jointly.

xv. Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Council as Lessee

Operating Leases

Rental paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefiting from use of the leased property, plant or equipment. Charges are made on a straight –line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a rent-free period at the commencement of the lease)

The Council as Lessor

Operating Leases

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

xvi. Overheads and Support Services

The costs of overheads and support services are charged to service segments in accordance with the Council's arrangements for accountability and financial performance.

xvii. Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

Assets Included

All land and buildings owned by the Council are included. Vehicles and equipment are included where the useful asset life is more than three years and the purchase cost is greater than £9,000 (vehicles), or £10,000 (equipment).

Measurement

Assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management

The Council does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash

flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income line of the Comprehensive Income and Expenditure Statement, unless the donation has been made conditionally. Until conditions are satisfied, the gain is held in the Donated Assets Account.

Where gains are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance to the Capital Adjustment Account in the Movement in Reserves Statement.

Assets are then carried in the Balance Sheet using the following measurement bases:

- infrastructure community assets and assets under construction depreciated historical cost
- dwellings current value, determined using the basis of existing use value for social housing (EUV-SH)
- council offices current value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV)
- surplus assets the current value measurement base is fair value, estimated at highest and best use from a market participant's perspective.
- all other assets current value, determined as the amount that would be paid for the asset in its existing use (existing use value EUV).

Where there is no market-based evidence of current value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of current value.

Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for current value.

Assets included in the Balance Sheet at current value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their current value at the year-end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the
 carrying amount of the asset is written down against the relevant service line(s) in the
 Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

- dwellings and other buildings straight-line allocation over the useful life of the property as estimated by the valuer.
- vehicles, plant, furniture and equipment a straight-line allocation over between 3 and 10 years according to estimated useful life.
- Infrastructure straight-line allocation over 25 years

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Componentisation

Where assets are found to have significant components which would materially affect the depreciation charge, the valuation of these assets will be componentised. If the overall value of a Property, Plant and Equipment asset is greater than £1.5m, componentisation will then be applied to any such assets where individual components with a different useful life to the overall item has a cost of £10,000 or over.

Disposals and Non-current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at

the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previously losses recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. A proportion of capital receipts relating to housing disposals is payable to the Government. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

xviii. Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement when the Council has an obligation, and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year - where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

xix. Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by transferring amounts out of the General Fund Balance. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then transferred back into the General Fund Balance so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Council - these reserves are explained in the relevant policies.

xx. Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of council tax.

xxi. VAT

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

xxii. Fair value measurement of non-financial assets

The Council measures some of its non-financial assets such as surplus assets and investment properties and some of its financial instruments such as Certificates of Deposit and Corporate Bonds at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability

The Council measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset. The Council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Council uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the Council's financial statements are categorised within the fair value hierarchy, as follows:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date.
- Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 unobservable inputs for the asset or liability

2. Accounting Standards that have been issued but have not yet been adopted

At the balance sheet date the following new standards and amendments to existing standards have been adopted by the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 for application from 1 April 2020:

• IFRS 16 Leases will require local authorities that are lessees to recognise leases on their balance sheets as right-of-use assets with corresponding lease liabilities (there

is recognition for low-value and short leases). CIPFA/LASAAC have deferred implementation of IFRS16 for local government to 1 April 2021.

- IAS 19 Employee Benefits will require the re-measurement of net pension asset/liability following plan amendments, curtailments or settlements to be used to determine current service cost and net interest for the remainder of the year after the change to the plan. The updating of these assumptions only applies to changes from 1st April 2020 and, since this could result in positive, negative or no movement in the net pension liability, no prediction can be made of the possible accounting impact.
- IAS 28 Investments in Associates and Joint Ventures: Long Term Interests in Associates and Joint Ventures. This amendment clarifies that a company applies IFRS 9 Financial Instruments to long-term interests in an associate or joint venture that form part of the net investment in the associate of joint venture. This will have no impact on the Council.
- Annual Improvements to IFRS 2015-2017 Cycle which includes amendments to IFRS 3 Business Combinations; IFRS 11 Joint Arrangements; IAS 12 Income Taxes and IAS23 Borrowing Costs. These amendments are clarifications to existing standards which will have no impact on the Council.

3. Critical Judgements in applying accounting policies

In applying the accounting policies set out in Note 1, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events.

Funding

There is a high degree of uncertainty about future levels of funding for local government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision. Other income is uncertain at present due to Covid-19.

Investment properties

Investment properties have been estimated using the identifiable criteria under IFRS of being held for rental income or for capital appreciation. These properties have been assessed using these criteria, which is subject to interpretation.

Leases

The Council has examined its leases, and classified them as either operational or finance leases. In some cases the lease transaction is not always conclusive and the Council uses judgement in determining whether the lease is a finance lease arrangement that transfers substantially all the risks and rewards incidental to ownership. In reassessing the lease the Council has estimated implied interest rate with in the lease to calculate interest and principal payments.

Coronavirus (Covid-19)

The impact of the coronavirus pandemic is a significant source of estimation uncertainty, one such implication is for property valuations. Market activity is being impacted in many sectors giving less weight to precious market evidence for comparison purposes and an unprecedented set of circumstances of which to base a judgement. The Council's property valuers Wilks Head & Eve have therefore reported on the basis of "material valuation uncertainty". Consequently, less certainty and a higher degree of caution should be attached to review/valuation than is normal.

4. Assumptions made about the future and other major sources of estimation uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, the nature of estimation means that actual outcomes could differ from those estimates.

The items in the Council's Balance Sheet at 31 March 2020 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Term	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Council will be	If the useful life of assets is reduced by 1 year, depreciation increases and the carrying amount of the assets falls. It is estimated that the annual
	able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets.	depreciation charge for buildings would increase by £364,018.42 for every year that useful lives had to be reduced.
Valuation of Operational Property	The valuation of the Operational Property has been reported by the Valuer on the basis of 'valuation uncertainty' as per the RICS Red Book. A high degree of caution is recommended by the Valuer in the review provided. This is due to the unprecedented set of situations on which to base a judgement.	A reduction in the estimated valuations would result in reductions to the Revaluation Reserve or the Capital Adjustment Account. 0.5% of operational property would be £909,000 would hit the revaluation and capital adjustment reserve.

Pensions Liability

Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.

The effects on the net pensions liability of changes in individual assumptions can be measured. For instance, a 0.5% decrease in the discount rate assumption would result in an increase in the pension liability of £20.9m. A 1 year increase in member life expectancy would result in an increase in the pension liability of around £6.9m to £11.6m. A 0.5% increase in the Salary Increase Rate would result in an increase in the pension liability of £1.8m. A 0.5% increase in the Pension Increase Rate would result in an increase in £18.9m.

Arrears

At 31 March 2020, the Council had a balance of sundry debtors of £12.246m. A review of significant balances suggested that an impairment of doubtful debts of (£5.869m) was appropriate. However, due to the impact of Covid-19 on the current economic climate it is not certain that such an allowance would be sufficient.

If Collection rates were to deteriorate, a doubling of the amount of the impairment of doubtful debts would require an additional £5.869m to set aside as an allowance.

Business Rates

The Local Government Finance Act 2012 introduced a business rates retention scheme that enabled local authorities to retain proportion of the business rates generated in their area. The new arrangements for the retention of business rates came into effect on 1 April 2013.

The Council has recognised a provision for its share of the best estimate of refunds due to ratepayers who will successfully appeal against the rateable value of their properties on the rating list. This will include amounts relating to non-domestic rates charged to the business in 2012-13 and earlier financial years. The estimate has been calculated using the Valuation Office (VOA) rating list of appeals and the analysis of successful appeals to date when providing the estimate of total provision up to and including 31 March 2020.

A 1% increase in the success rate of appeals would increase the provision by £1.7m. The Council's overall financial losses would be protected by the safety net.

Fair value measurements

When the fair values of financial assets and financial liabilities cannot be measured based on quoted prices in active markets (ie Level 1 inputs), their fair value is measured using valuation techniques (eg quoted prices for similar assets or liabilities in active markets or the discounted cash flow (DCF) model). Where possible, the inputs to these valuation techniques are based on

The Council uses the discounted cash flow (DCF) model to measure the fair value of some of its investment properties and financial assets.

The significant unobservable inputs used in the fair value measurement include management assumptions

observable data, but where this is not possible judgement is required in establishing fair values. These judgements typically include considerations such as uncertainty and risk. However, changes in the assumptions used could affect the fair value of the Council's assets and liabilities.

Where Level 1 inputs are not available, the Council employs relevant experts to identify the most appropriate valuation techniques to determine fair value (for example for investment properties, the Council's appointed external valuer).

Information about the valuation techniques and inputs used in determining the fair value of the Council's assets and liabilities is disclosed in notes 16 and 18.

regarding rent growth, vacancy levels (for investment properties) and discount rates-adjusted for regional factors (for both investment properties and some financial assets)

Significant changes in any of the unobservable inputs would result in a significantly lower or higher fair value measurement for the investment properties and financial assets.

5. Events after the Balance Sheet Date

The Statement of Accounts was authorised for issue by the Head of Corporate Finance on 3 June 2020. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2020, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

6. Note to the Expenditure and Funding Analysis

2019/20	Adjustments between Funding and Accounting Basis

Adjustments for Capital Purposes

Adjustments for capital purposes – this column adds in depreciation and impairment and revaluation gains and losses in the service line, and for:

Other operating expenditure – adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets.

Financing and investment income and expenditure – the statutory charges for capital financing i.e. Minimum Revenue Provision and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.

Taxation and non-specific grant income and expenditure – capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied throughout the year. The Taxation and Non Specific Grant Income and Expenditure line is credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

Net Change for the Pensions Adjustments

Net change for the removal of pension contributions and the addition of IAS 19 *Employee Benefits* pension related expenditure and income:

For services this represents the removal of the employer pension contributions made by the authority as allowed by statute and the replacement with current service costs past service costs.

For **financing and investment income and expenditure** – the net interest on the defined benefit liability is charged to the CIES.

Other Differences

Other differences between amounts debited/credited to the Comprehensive Income and Expenditure Statement and amounts payable/receivable to be recognised under statute:

For **Financing and investment income and expenditure** the other differences column recognises adjustments to the General Fund for the timing differences for premiums and discounts.

The charge under **Taxation and non-specific grant income and expenditure** represents the difference between what is chargeable under statutory regulations for council tax and NDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing differences as any difference will be brought forward in future Surpluses or Deficits on the Collection Fund.

2040/20

7. Segmental Income & Expenditure

2040/40

Income received and depreciation are analysed below on a segmental basis:

2018	3/19		2019/20		
(Restated Income from Services £' 000	- Note 43) Depreciation £' 000	Services	Income from Services £' 000	Depreciation £' 000

1,032	Payments to Housing Capital Receipts Pool	1,032
121	Gain on the disposal of assets	(744)
134,485	Total expenditure	147,539
	Income	
(72,863)	Fees, charges and other service income	(77,765)
(1,017)	Interest and investment income	(940)
(13,127)	Income from council tax, non-domestic rates	(13,691)
(47,525)	Government grants and contributions	(38,952)
(134,532)	Total income	(131,348)
(47)	(Surplus) or deficit on the Provision of Services	16,191

9. Adjustments between Accounting Basis and Funding Basis under Regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

General Fund Balance

The General Fund is the statutory fund into which all the receipts of an authority are required to be paid and out of which all liabilities of the authority are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover) at the end of the financial year. However, the balance is not available to be applied to funding HRA services.

Housing Revenue Account Balance

The Housing Revenue Account Balance reflects the statutory obligation to maintain a revenue account for local authority council housing provision in accordance with Part VI of the Local Government and Housing Act 1989. It contains the balance of income and expenditure as defined by the 1989 Act that is available to fund future expenditure in connection with the Council's landlord function or (where in deficit) that is required to be recovered from tenants in future years.

Major Repairs Reserve

The Authority is required to maintain the Major Repairs Reserve, which controls an element of the capital resources limited to being used on capital expenditure on HRA assets or the financing of historical capital expenditure by the HRA. The balance shows the capital resources that have yet to be applied at the year-end.

Capital Receipts Reserve

The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at year-end.

Capital Grants Unapplied

The Capital Grants Unapplied Account (Reserve) holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to meet expenditure against which it can be applied and/or the financial year in which this can take place.

*New Town Hall

The Council is progressing the building of a New Town Hall on part of the site of the existing Town Hall and this has resulted in a £8,743,152 impairment of the demolished portion of the Town Hall and this was reflected in the table above.

Capital Commitments

At 31 March 2020, the Authority has entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment in 2020/21 and future years budgeted to cost £58,707,744. Similar commitments at 31 March 2019 were £22,858,894.

The major commitments are:

	£'000	
HRA Programmed Repairs	10,010	
HRA Affordable Housing	14,404	
Community – Park and Recreation	4	
Cabinet – New Town Hall	34,036	
Cabinet – Crawley Growth Programme	240	
Environment – Town Centre Regeneration	13	
	58,707	

Revaluations

The Council carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at fair value is revalued at least every five years. Valuations of land and buildings are carried out externally by Wilks Head Eve Chartered Surveyors, in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Valuations of vehicles, plant, furniture and equipment are based on current prices where there is an active second-hand market or latest list prices adjusted for the condition of the asset.

Public Works of Art

The Council has a number of sculptures and other art work throughout the Borough. These have been included in the Balance Sheet at cost where this information is available.

16. Investment Properties

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement:

	2018/19 £'000	2019/20 £'000
Rental income from investment property	(1,210)	(1,261)
Direct operating expenses arising from investment property *	552	2,274
Net (Gain)/Loss	(658)	1,013

^{*}Direct operating expenses include revaluations of investment property (see net gains/losses from fair value adjustments in the table below)

There are no restrictions on the Authority's ability to realise the value inherent in its investment property or on the Authority's right to the remittance on income and proceeds of disposal. The Authority has no contractual obligations to purchase, construct or develop investment property. With the exception of leases in which the Authority retains responsibility for undertaking repairs, the Authority does not undertake repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of investment properties over the year:

	2018/19 £'000	2019/20 £'000
Balance at the start of the year Additions:	21,322	20,041
PurchasesSubsequent expenditure	-	7,448 39
Disposals Net gains/losses from fair value adjustments Transfers:	(370)	(1,941)
 to/from Property, Plant and Equipment to/from Assets Held for Sale to/from Land and Buildings 	(911) - -	- - -
Balance at end of the year	20,041	25,587

Revaluations

The Council values all investment properties with a rolling programme that ensures that all Investment Property required to be measured at fair value is inspected at least every five years. Valuations of Investment Property are carried out externally by Wilks Head Eve Chartered Surveyors, in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors.

Office Units	-	16,838	-	16,838
Commercial Units	-	8,749	-	8,749
Total	-	25,587	-	25,587

2019 Comparative Figures

Recurring fair value measurements using:	Quoted prices in active markets for identical assets (Level 1)	Other significant observable inputs (Level 2)	Significant unobservable inputs (Level 3) £'000	Fair value as at 31 March 2019 £'000
Office Units	-	16,757	-	16,757
Commercial Units	-	3,285	-	3,285
Total	-	20,042	-	20,042

Transfer between Levels of the Fair Value Hierarchy

There were no transfers between Levels 1 and 2 during the year.

Valuation Techniques used to Determine Level 2 Fair Values for Investment Properties

Significant Observable Inputs - Level 2

The fair value of the Office and Commercial Units located in the local authority area (at market rents) has been based on the market approach using current market conditions and recent sales process and other relevant information for similar assets in the local authority area. Market conditions are such that similar properties are actively purchased and sold and the level of observable inputs are significant, leading to the properties being categorised at Level 2 in the fair value hierarchy.

Highest and Best use of Investment Properties

In estimating the fair value of the authority's six of the seven investment properties, the highest and best use of the properties is their current use.

For one of the authorities commercial properties are not being used at the highest and best current use, the authority is looking to address this by developing these sites in the future.

Valuation Techniques

There has been no change in the valuation techniques used during the year for investment properties.

Additional information has been supplied to arrive at the notional 'Highest and Best use value' for the assets within the principal market whilst ensuring that any alternative use is physically, legally and financially possible.

This has been achieved, for these purpose, by comparing the 'current use' of the assets to the notional 'alternative use' based on potential redevelopment on a land value basis for the site.

Valuation Process for Investment Properties

The fair value of the authority's investment property is measured annually at each reporting date. All valuations are carried out by the authority's appointed valuers Wilks Head & Eve, in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. The authority's valuation experts work closely with finance officers reporting directly to the chief financial officer on a regular basis regarding all valuation matters.

17. Intangible Assets

The Council accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. None of the intangible assets are internally generated.

The carrying amount of all intangible assets is amortised on a straight-line basis across a useful life of 5 years. The amortisation of £36,376.84 charged to revenue in 2019/20 was charged to appropriate service headings in the Net Expenditure of Services.

The movement on Intangible Asset balances during the year is as follows:

	Internally	2018/19		Internally	2019/20		
	Generated Assets £'000	Other Assets £'000	Total £'000	Generated Assets £'000	Other Assets £'000	Total £'000

			• • •	, , ,	
Creditors that are not financial instruments	-	-	(10,428)	(11,714)	
Total Creditors	-	_	(20,654)	(22,552)	

Note 1 – Under accounting requirements the carrying value of the financial instrument value is shown in the balance sheet which includes the principal amount borrowed or lent and further adjustments for breakage costs or stepped interest loans (measured by an effective interest rate calculation) including accrued interest. Accrued interest is shown separately in current assets/liabilities where the payments/receipts are due within one year. The effective interest rate is effectively accrued interest receivable under the instrument, adjusted for the amortisation of any premiums or discounts reflected in the purchase price.

Note: Accrued interest is not required for instruments measured at EIR, as this adjustment covers a full year's interest.

Note 2 – Fair value has been measured by direct reference to published price quotations in an active market.

Note 3 – Local authorities sometimes give financial guarantees that require them to make specified payments to reimburse the holder of a debt if the debtor fails to make payment when due in accordance with the terms of the contract. The Council provided a financial guarantee in respect of mortgages granted on shared ownership sales of certain Council dwellings, which has been initially recognised at fair value.

Subsequently this is measured at the higher of the amount recognised initially and the amount determined in accordance with IAS 37 Provisions, Contingent Liabilities and Assets less when appropriate cumulative amortisation. Therefore, the carrying amount of the financial guarantee would remain at the original amount estimated at inception (less cumulative amortisation) unless payment under the guarantee becomes probable at which point the amount of the liability will be determined in accordance with IAS 37.

Income, Expense, Gain and Losses

The gains and losses recognised in the Comprehensive Income and Expenditure Statement in relation to financial instruments are made up as follows:

	31 March	2019	31 March 2020		
	Surplus or	Other	Surplus or	Other	
	Deficit on the	Comprehensive	Deficit on the	Comprehensive	
	Provision of	Income and	Provision of	Income and

Total litterest revenue	(1,134)	-	(1,130)	_	
Interest expense	8,309	-	8,310	-	

Fair value of financial assets

Some of the council's financial assets are measured at fair value on a recurring basis and are described in the following table, including the valuation techniques used to measure them.

Financial assets measured at fair value

Recurring fair value measurements	Input level in fair value hierarchy	•	As at 31 March 2019 £'000	As at 31 March 2020 £'000
Fair Value through Pro	ofit and Loss			
		Historic cost adjusted by house price indices and discounted to the balance		
Shared equity loans	Level 3	sheet date	2,688	5,069

Transfer between Levels of the Fair Value Hierarchy

There were no transfer between input levels 1 and 2 during the year.

Changes to the Valuation Technique

There has been no change in the valuation technique used during the year for the financial instruments.

Reconciliation of Fair Value Measurements for Financial Assets Carried at Fair Value Categorised within Level 3 of the Fair Value Hierarchy for financial Assets

31 March 31 Ma	ch
2019 20	20
£'000	00
Opening balance 1,604 2,6	88
Included in Surplus or Deficit on the Provision	
of Services 52	32
Additions 1,032 2,4	40
Disposals - (19)1)
Closing balance 2,688 5,0	69

Shared equity loans are provided by third party developers as a discount on the market value of new homes for the benefit of first time buyers. The discount is registered as a charge on the property and becomes payable to the Council on certain events, including the sale of the property. On initial recognition, the loan is recognised in the Other Operating Income line within the Surplus or Deficit on the Provision of Services. There is no directly observable fair value for individual loans arising from the sale of specific properties under the scheme, and therefore the Council determines the fair value of the portfolio of loans based on house price indices and a discount factor. Details of the key assumptions are as follows:

Assumption	31 March 2019 £'000	31 March 2020 £'000
Period over which shared equity loan receivable are discounted	9 years	9 years
Nominal discount rate	3.5%	3.5%
Number of loans under the shared equity scheme outstanding at the year-end	63	106

The Fair Values of Financial Assets and Financial Liabilities that are not Measured at Fair Value (but for which Fair Value Disclosures are Required)

Except for the financial assets carried at fair value (described in the table above), all other financial liabilities and financial assets represented by amortised cost and long-term debtors and creditors are carried on the balance sheet at amortised cost. Their fair value disclosed below have been estimated by calculating the net present value of the remaining contractual cash flows at 31st March 2020, using the following methods and assumptions:

- Loans borrowed by the Council have been valued by discounting the contractual cash flows over the whole life of the instrument at the appropriate market rate for local authority loans;
- The fair values of other long-term loans and investments have been discounted at the market rates for similar instruments with similar remaining terms to maturity on 31st March;
- No early repayment or impairment is recognised for any financial instrument;
- The fair value of short-term instruments, including trade payables and receivables, is assumed to approximate to the carrying amount given the low interest rate environment.

The fair values calculated are as follows:

Financial Liabilities

	31 March 2019 Carrying amount Fair value £'000 £'000		31 March 2020 Carrying amount Fair value £'000 £'000	
Cash and Cash Equivalents	1,275	1,275	462	462
PWLB debt	260,339	293,375	260,343	297,368
Short term creditors	10,226	10,226	10,838	10,838
Total Liabilities	271,840	304,876	271,643	308,668

The fair value of the assets is greater than the carrying amount because the council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans in the market at the balance sheet date. This shows a notional future loss (based on economic conditions at 31 March 2020) arising from a commitment to pay interest to lenders above current market rates.

Financial Assets	31 March 2019		31 March 2020	
	Carrying amount £'000	Fair value £'000	Carrying amount £'000	Fair value £'000
Money market loans<1 year	33,296	33,306	18,968	18,968
Short term investments	72,746	72,940	59,305	59,305
Long term investments	-	-	10,000	10,055
Short term debtors	3,485	3,485	3,570	3,570
Long term debtors	5,889	5,889	6,067	6,067
Total Assets	115,416	115,620	97,910	97,965

The fair value of the assets is greater than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans in the market at the balance sheet date. This shows a notional future gain (based on economic conditions at 31 March 2020) arising from commitment to pay interest to lenders above current market rates.

Short-term debtors and creditors are carried at cost as this is a fair approximation of their value.

Fair value hierarchy for financial assets and financial liabilities that are not measured at fair value

	31 March 2020				
	Quoted Prices in active markets for identical assets (Level 1) £'000	Other Significant observable inputs (Level 2) £'000	Significant unobservable inputs (Level 3) £'000	Total £'000

The fair value for financial liabilities and financial assets that are not measured at fair value included in levels 2 and 3 in the table above have been arrived at using the discounted cash flow analysis with the most significant inputs being the discount rate.

33,306

The fair value for financial liabilities and assets that are not measured at fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following assumptions.

Financial assets

Total

- No early repayment or impairment is recognised
- Estimated ranges of interest rates at 31 March 2020 of 1.10% to 1.14% for loans receivable, based on new lending rates for equivalent loans at that date
- The fair value of trade and other receivables is taken to be the invoiced or billed amount

Financial liabilities

No early repayment is recognised

72,940

9,374

115,620

 Estimated ranges of interest rates at 31 March 2020 of 1.50% to 2.00% for loans payable based on new lending rates for equivalent loans at that date

19. Debtors

	31 March 2019 £'000	31 March 2020 £'000
Central Government Departments	1,413	1,429

Unwinding of discounting in 2019/20	<u>-</u>		-
Balance at 31 March 2020	175	1,948	2,123

Accumulated Absences

Provision for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March.

NNDR Appeal

An estimate of the Council's share of the outstanding appeals which may result in lower rateable values resulting in a refund of business rates, see collection fund.

24. Usable Reserves

Movements in the Council's usable reserves are detailed in the Movement in Reserves Statement and Note 10.

25. Unusable Reserves

31 March 2019 £'000		31 March 2020 £'000
	Unusable Reserves Held for Capital Purposes	
251,575	Revaluation Reserve	253,725
329,053	Capital Adjustment Account	335,254
6,919	Deferred Capital Receipts Reserve	9,191
587,547	Total Unusable Reserves Held for Capital Purposes	598,170
	Unusable Reserves Held for Revenue Purposes	
(16,164)	Pension Reserve	24,785
91	Collection Fund Adjustment Account	(167)
(166)	Accumulated Absences Account	(175)
(16,239)	Total Unusable Reserves Held for Revenue Purposes	24,443
571,308	Total Unusable Reserves	622,613

(a) Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment and Intangible Assets. Then Balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

31 March 2019 £'000			31 March 2020 £'000
247,511	Balance at 1 April		251,575
13,308	Upward revaluation of asset	15,392	
(3,465)	Downward revaluation of assets and impairment losses not charged to the Surplus/Deficit on the Provision of Services	(7,903)	
9,843	Surplus or Deficit on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services		7,489
(4,386)	Difference between fair value depreciation and historical cost depreciation	(4,524)	
(1,393)	Accumulated gains on assets sold or scrapped	(815)	
(5,779)	Amount written off to the Capital Adjustment Account		(5,339)
251,575	Balance at 31 March		253,725

(b) Capital Adjustment Account

The balance on this Account represents resources set aside to finance capital expenditure less the historical cost of acquiring, creating or enhancing fixed assets. However, the balance also includes revaluation gains prior to 1 April 2007 on assets that are currently held.

2018/19 £'000			2019/20 £'000
312,064	Balance at 1 April		329,053
	Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:		
(10,246)	 Charges for depreciation and impairment of non-current assets 	(10,183)	
(9,939)	 Revaluation losses on Property, Plant and Equipment 	(19,454)	
(104)	 Amortisation of intangible assets 	(36)	
(2,313)	 Revenue expenditure funded from capital under statute 	(7,819)	
(11,000)	 Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure 	(10.070)	
(11,029) (33,631)	Statement	(12,978)	(50,470)
, ,	Adjusting amounts written out of the Revaluation		,
5,779	Reserve Net written out amount of the cost of non-current		5,339
(27,852)	assets consumed in the year		(45,131)
	Capital financing applied in the year:		
9,270	 Use of the Capital Receipts Reserve to finance new capital expenditure 	17,470	
30,047	 Use of the Major Repairs Reserve to finance new capital expenditure 	27,264	
2,613	 Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing 	2,676	
139	 Application of grants to capital financing from the Capital Grants Unapplied Account 	176	
-	 Statutory provision for the financing of capital investment charged against the General Fund and HRA balances 	-	
3,142	 Capital expenditure charged against the General fund and HRA balances 	5,688	
45,211	Mayamanta in the market value of lavastreest		53,274
(370)	Movements in the market value of Investment Properties debited or credited to the Comprehensive Income and Expenditure Statement		(1,942)
-	Movement in the donated Assets Account credited to the Comprehensive Income and Expenditure Statement		-
329,053	Balance at 31 March		335,254

(c) Deferred Capital Receipts Reserve

The Deferred Capital Receipts reserve holds the gains recognised on the disposal of non current assets but for which cash settlement has yet to take place. Under statutory arrangements, the Council does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the Capital Receipts Reserve.

2018/19 £'000		2019/20 £'000
5,890	Balance at 1 April	6,919
1,029	Transfer of deferred sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	2,440
	Transfer to the Capital Receipts Reserve upon receipt of cash	(168)
6,919	Balance at 31 March	9,191

(d) Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

2018/19 £'000 (3,223)	Balance at 1 April	2019/20 £'000 (16,164)
(10,237)	Actuarial gains or losses on pensions assets and liabilities	45,854
(6,196)	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and expenditure Statement	(8,777)
3,492	Employer's pensions contribution and direct payments to pensioners payable in the year	3,872
(16,164)	Balance at 31 March	24,785

(e) Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax and business rates income in the Comprehensive Income and Expenditure Statement as it falls due from tax payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

2018/19 £'000		2019/20 £'000
418	Balance at 1 April	91
(007)	Amount by which council tax and business rates income credited to the Comprehensive Income and Expenditure Statement is different from council tax and business rates income calculated for the year in accordance with	(050)
(327)	_ statutory requirements	(258)
91	Balance at 31 March	(167)

(f) Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General fund Balance is neutralised by transfers to or from the Account.

2018/19 £'000			2019/20 £'000
(158)	Balance at 1 April		(166)
158	Settlement or cancellation of accrual made at the end of the preceding year	166	
(166)	Amounts accrued at the end of the current year	(175)	
(8)	Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements		(9)
(166)	Balance at 31 March		(175)

26. Cash Flow Statement - Operating Activities

The cash flows for operating activities include the following items:

31 March 2019 £'000		31 March 2020 £'000
1,057	Interest received	1,186
(8,304)	Interest paid	(8,304)
-	Dividends received	-

The surplus or deficit on the provision of services has been adjusted for the following non-cash movements:

31 March 2019 £'000		31 March 2020 £'000
10,245	Depreciation	10,183
9,940	Impairments and downward valuations	19,454
105	Amortisation	36
-	Increase/(decrease) in impairment for bad debts	-
2,596	Increase/(decrease) in creditors	(2,794)
(753)	(Increase)/decrease in debtors	387
(2)	(Increase)/decrease in inventories	(14)
2,704	Movement in pension liability	4,905
11,027	Carrying amount of non-current assets and non-current assets held for sale, sole or derecognised	12,978
1,556	Other non-cash items charged to the net surplus or deficit on the provision of services	(518)
37,418		44,617

The surplus or deficit on the provision of services has been adjusted for the following items that are investing and financing activities:

-	Proceeds from short-term (not considered to be cash equivalents) and long-term investments (includes investments in associates, joint ventures and subsidiaries)	(1)
(11,940)	Proceeds from the sale of property, plant and equipment, investment property and intangible assets	(16,162)
(3,405)	Any other items for which the cash effects are investing or financing cash flows	(2,881)
(15,345)		(19,044)

27. Cash Flow Statement – Investing Activities

The cash flows for operating activities include the following items:

2018/19 £'000		2019/20 £'000
(43,854)	Purchase of property, plant and equipment, investment property and intangible assets	(44,596)
(156,716)	Purchase of short-term and long-term investments	(151,645)
(15)	Other payments for investing activities	(18)
10,849	Proceeds from the sale of property, plant and equipment, investment property and intangible assets	13,822
164,291	Proceeds from short-term and long-term investments	169,437
3,043	Other receipts from investing activities	3,295
(22,402)	Net cash flows from investing activities	(9,705)

28. Cash Flow Statement - Financing Activities

2018/19 £'000		2019/20 £'000
-	Cash receipts of short and long-term borrowing	-
-	Other receipts from financing activities	-
-	Cash payments for the reduction of the outstanding liabilities relating to finance leases and on-balance sheet PFI contracts	-
-	Repayments of short and long term borrowing	-
1,061	Other payments for financing activities	3,852
1,061	Net cash flows from financing activities	3,852

29. Trading Operations

The Council owns and manages Neighbourhood Parades and a number of other Non operational properties. In total there are around 350 leases generating rental income from letting premises. The trading objective is to maximise the surplus. The service also manages leases on properties let to some charity and community groups at a discounted rate.

	2018/19 £'000	2018/19 £'000	2019/20 £'000	2019/20 £'000
Turnover for commercial operations	1,210		1,253	
Turnover related to non-commercial lets	4,299	_	4,533	
Total Turnover		5,509		5,786
Expenditure	(1,904)		(2,657)	
Movement in Fair Value of investment Properties	(370)	_	(1,943)	_
		(2,274)		(4,600)
Net Surplus/(deficit) on trading operations	;	3,235		1,186

Trading operations are incorporated in the Comprehensive Income and Expenditure Statement.

	2018/19 £'000	2019/20 £'000
Net Surplus on trading operations	3,235	1,186
Net Surplus credited to Financing and Investment Income and Expenditure	3,235	1,186

30. Agency Services

The Council operates three agency agreements as detailed below, the cost of which is fully reimbursable. In the case of verge maintenance the Council undertakes additional cuts.

Verge maintenance on behalf of West Sussex County Council (WSCC)

WSCC-Verge/Shrub maintenance	2018/19 £'000	2019/20 £'000
Expenditure incurred in providing verge/shrub maintenance	208	216
Income – contribution from WSCC	(182)	(182)
Net (surplus)/deficit arising on agency arrangement	26	34

Car Parking Enforcement (CPE) service and Controlled Parking Zone (CPZ) service on behalf of WSCC and other Partners

	2018/19	2019/20
WSCC-Civil Parking Enforcement	£'000	£'000
Expenditure incurred in providing a CPE/CPZ service	458	547
Income raised from fees and charges	(1,076)	(1,110)
Contribution to expenditure	(458)	(547)
Income Share	1,059	1,090
Management Fee Payable	(148)	(150)
Net (surplus)/deficit arising on agency arrangement	(165)	(170)

31. Members' Allowances

The Council paid the following amounts to members of the council during the year:

	2018/19	2019/20
	£'000	£'000
Salaries	n/a	n/a
Allowance	337	325
Expenses		-
Total	337	325

32. Officers' Remuneration & Exit Package

The following table sets out the remuneration paid to the Council's Senior Officers.

		Salary, Fees and Allowances £	Benefits in Kind	Expenses Allowances £	Compensation for loss of Office	Pension Contribution £	Total £
	2019/20	132,266	2,217	_	_	26.347	160,830
Chief Executive	2018/19	116,846	1,776	-	-	25,239	143,861
	2019/20	96,856	_	_	-	21,405	118,261
Deputy Chief Executive	2018/19	74,656	-	-	-	16,126	90,782
Head of Corporate Finance	2019/20	73,871	60	-	-	16,254	90,185
(S.151 Officer)	2018/19	71,596	62	-	-	15,465	87,123
Head of Legal, Democratic	2019/20	74,865	-	-	-	16,254	91,119
Services and HR	2018/19	71,966	-	-	-	15,465	87,431

During 2018/19 Crawley Borough Council recruited into the position of Deputy Chief Executive with this position being vacant during some part of the year.

The Council's other employees whose remuneration, excluding pension contributions was £50,000 or more in bands of £5,000 was:

Remuneration Band	Number of Employees 2018/19	Number of Employees 2019/20
£50,000 - £54,999	10	16
•		
£55,000 - £59,999	10	8
£60,000 - £64,999	1	2
£65,000 - £69,999	1	1
£70,000 - £74,999	2	3
£75,000 - £79,999	-	-
£80,000 - £84,999	-	-
£85,000 - £89,999	-	-
£90,000 - £94,999	-	-
£95,000 - £99,999	-	-
£100,000+	-	-

The number of exit packages with total cost per band and total cost of the compulsory and other redundancies are set out in the table below.

Exit package cost band (including	comp	ber of ulsory lancies	Number of other Total number of departures exit packages by agreed cost band		Total cost of exit packages in each band			
special	2018/19	2019/20	2018/19	2019/20	2018/19	2019/20	2018/19	2019/20
payments)	Qty	Qty	Qty	Qty	Qty	Qty	£	£
£0 - £20,000	-	-	-	1	-	1	-	12,652

£200,001- £250,000	-	-	-	-	-	-	-	-
TOTAL	-	-	1	1	1	1	62,500	12,652

33. External Audit Cost

In 2019/20 the Council incurred the following fees payable to Ernst & Young LLP relating to external audit and inspection:

	2018/19 £'000	2019/20 £'000
Fees payable with regard to external audit services carried out by the appointed auditor	65	76
Fees payable in respect of other services provided by the auditor during the year*	3	3
Total	68	79

^{*}The fees for other services payable in 2019/20 related to the audit of the Capital Pooling return for 2018/19, which was not undertaken by the appointed auditor, Ernst & Young LLP.

34. Grant Income

The Council credited the following grants, contributions and donations to the Comprehensive Income and Expenditure statement in 2019/20:

Credited to Taxation and Non Specific Grant	2018/19 £'000	2019/20 £'000
Income		
Revenue Support Grant	575	
Capital Grants and Contributions	1,328	407
New Homes Bonus	1,467	1,473
Preventing Homelessness	112	49
Other Grants	317	470
Business Rate Grants	1,013	898
	4,812	3,297
Credited to Services		
Rent Allowance	23,553	18,986
Rent Rebates	18,276	15,875
Benefits Administration	574	521
NNDR Collection	202	212
Other Grants	1,063	958
Total	43,668	36,552

The Council has received a number of grants, contributions and donations that have yet to be recognised as income as they have conditions attached to them that will require the monies or property to be returned to the giver, if the condition is not met. The balance at the year end is;

	2018/19 £'000	2019/20 £'000
Capital Grants Receipts in Advance		
S106 – Transport	892	216
S106 – Amenity Space	793	488
S106 – Other Grants	308	1,624
Total	1,993	2,328

35. Related Parties

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely within the Council.

Central Government

Central government has effective control over the general operations of the Council – it is responsible for providing the statutory framework within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g. council tax bills, housing benefits). Grants received from government departments are set out in the subjective analysis in Note 8 Expenditure and Income Analysed by Nature. Grant receipts outstanding at 31 March 2020 are shown in Note 34.

Chief Officers and Members

Relevant Chief Officers and Members were canvassed and signed declarations have been obtained from them to ascertain any material transactions with related parties. In the financial year the Voluntary Sector Grants Awarded totalled £614,210 in which thirteen members had an interest. Additionally 1 member had an interest in an organisation which received discretionary rent relief totalling £15,480. The grants and the discretionary rent relief were made with proper consideration of declarations of interest. The relevant members did not take part in any discussion or decision relating to the grants or the discretionary rent relief.

36. Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below, together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. The CFR is analysed in the second part of this note.

Capital Expenditure and Capital Financing	2018/19 £'000	2019/20 £'000
Opening Capital Financing Requirement	260,325	260,325
Capital Investment		
Property, Plant and Equipment	42,836	37,881
Investment Properties	-	7,487
Intangible Assets	47	68
Revenue Expenditure Funded from Capital under Statute	2,313	7,819
Long Term Debtors	15	18
Sources of Finance		
Capital receipts	9,270	17,470
Capital reserves	2,240	-
Major Repairs Reserve	30,047	27,264
Government Grants and other contributions	2,752	2,851
Revenue contributions	902	5,688
Closing Capital Financing Requirement	260,325	260,325
	2018/19	2019/20
	£'000	£'000
Explanation of movements in year		
Increase in underlying need to borrowing (unsupported by government financial assistance)		-
Increase/(decrease) in Capital Financing Requirement	-	-

37. Leases

Council as Lessor

Operating Leases

The Council leases out property and equipment under operating leases for the following purposes:

- For the provision of community services, such as sports facilities, tourism services and community centres
- For economic development purposes to provide suitable affordable accommodation for local businesses.

The future minimum lease payments receivable under non-cancellable leases in future years are:

	31 March 2019 £'000	31 March 2020 £'000
Not later than one year	4,731	5,019
Later than one year and not later than five years	13,940	14,004
Later than five years	20,795	21,124
	39,466	40,147
Contingent rents	708	670

The minimum lease payments receivable do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews. In 2019/20 £669,896 contingent rents were receivable by the authority (2018/19 £708,401).

38. Termination Benefits

The Council terminated the contracts of a number of employees in 2019/20, incurring liabilities of £12,652 (£62,500 in 2018/19). See note 32 for the number of exit packages and total cost per band.

39. Defined Benefit Pension Scheme

Participation in pension schemes

Employees of Crawley Borough Council may participate in the West Sussex County Council Pension Fund, part of the Local Government Pension Scheme, a defined benefit statutory scheme. The Fund is administered by the County Council in accordance with the Local Government Pension Scheme Regulations 1997.

Employees were required to pay a contribution, calculated as a percentage of pensionable earnings, towards their pension. The rate payable is dependent on the pay each employee falls into. Under Regulation 9 of the LGPS 2014 the contribution bands are reviewed on 1 April each year in line with Pension increase orders. The new bands for 2020/21 are expected to be as follows:

		Contribution Rates		
Bands	Range	Main Section	50/50 Section	
1	Up to £14,600	5.50%	2.75%	
2	£14,601 to £22,800	5.80%	2.90%	
3	£22,801 to £37,100	6.50%	3.25%	
4	£37,101 to £46,900	6.80%	3.40%	
5	£46,901 to £65,600	8.50%	4.25%	
6	£65,601 to £93,000	9.90%	4.95%	
7	£93,001 to £109,500	10.50%	5.25%	
8	£109,501 to £164,200	11.40%	5.70%	
9	£164,201 or more	12.50%	6.25%	

The Council's contribution is set to meet the balance of the fund liabilities as required under the pension regulations. In 2019/20 the Council made a contribution of £3.562 million, 22.1% of pensionable pay (2018/19 £3.246 million, 21.6%). In addition the Council made a contribution for unfunded benefits of 0.310 million (2018/19 £0.309 million). The agreed contribution rate for future years is set out below.

Recommended Contribution Rates	Primary rate Cost of New Benefits Accruing % of Payroll	Secondary Rate Adjustment to the Primary Rate of Plus % of payroll		Rate
2020/21	21.40%	Plus	-0.30%	21.10%
2021/22	21.40%	Plus	-1.30%	20.10%
2022/23	21.40%	Plus	-2.30%	19.10%

Transactions relating to retirement benefits

The Council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against Council Tax is based on the cash payable into the pension fund. The real cost of retirement benefits is reversed out of the General Fund and Housing Revenue Account via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year.

	2018/19 £'000	2019/20 £'000

Basis of estimating assets and liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependant on assumptions about mortality rates, salary levels, etc. The liabilities have been assessed by Hymans Robertson LLP, an independent firm of actuaries, estimates being based on the latest full valuation of the scheme as at 31 March 2016.

The significant assumptions used by the actuary have been:

	Local Government Pension Scheme	
	2018/19	2019/20
Mortality assumptions:		
Longevity at 65 for current pensioners:		
• Men	23.6	22.2
 Women 	25.0	24.2
Longevity at 65 for future pensioners:		
• Men	26.0	23.3
 Women 	27.8	25.9
Rate of increase in salaries	3.20%	2.30%
Rate of increase in pensions	2.20%	1.90%
Rate for discounting scheme liabilities	2.40%	2.30%

An allowance is included for future retirements to elect to take 50% of the maximum additional tax free cash up to HMRC limits for pre-April 2008 service and 75% of the maximum tax-free cash for post April 2008 service.

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, ie on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

Change in assumptions at 31 March 2020:	Approximate % increase to Employer Liability	Approximate monetary amount (£000)
0.5% decrease in Real Discount Rate	9%	20,989
0.5% increase in the Salary Increase Rate	1%	1,854
0.5% increase in the Pension Increase Rate (CPI)	8%	18,973

McCloud

When the LGPS benefit structure was reformed in 2014, transitional protections were applied to certain older members close to normal retirement age. The benefits accrued from 1 April 2014 by these members are subject to an 'underpin' which means that they cannot be lower than what they would have received under the previous benefit structure. The underpin ensures that these members do not lose out from the introduction of the new scheme.

In December 2018 the Court of Appeal upheld a ruling ("McCloud/Sargeant") that similar transitional protections in the Judges' and Firefighters' Pension Schemes were unlawful on the grounds of age discrimination. The implications of the ruling are expected to apply to the LGPS (and other public service schemes) as well. The UK Government requested leave to appeal to the Supreme Court but this was denied at the end of June 2019. Therefore, LGPS benefits accrued from 2014 may need to be enhanced so that all eligible members, regardless of age, will benefit from the underpin. Alternatively, restitution may be achieved in a different way, for example by paying compensation. In either case, the clear expectation is that many more members would see an enhanced benefit rather than just those currently subject to these protections.

The West Sussex County Council Pension Fund's actuary has estimated an allowance of £0.6m for the McCloud judgement. This allowance has been included in the balance sheet as at 31st March 2020 and has been accounted for as a past service cost.

GMP

Guaranteed minimum pension (GMP) was accrued by members of the Local Government Pension Scheme (LGPS) between 6 April 1978 and 5 April 1997. The value of GMP is inherently unequal between males and females for a number or reasons, including a higher retirement age for men and GMP accruing at a faster rate for women. However overall equality of benefits was achieved for public service schemes through the interaction between scheme pensions and the Second State Pension. The introduction of the new Single State Pension in April 2016 disrupted this arrangement and brought uncertainty over the ongoing indexation of GMPs, which could lead to inequalities between men's and women's benefits.

As an interim solution to avoid this problem, GMP rules were changed so that the responsibility for ensuring GMPs kept pace with inflation passed in full to pension schemes themselves for members reaching state pension age between 6 April 2016 and 5 April 2021. This new responsibility leads to increased costs for schemes (including the LGPS) and hence scheme employers.

There is an allowance of £180,000 included in the financial statements for the impact of GMP indexation and has been accounted for as a past service cost.

Information about the Defined benefit obligation

Total Included in Profit and Loss	5,885	10,845	(4,960)	(30.90%)

^{*}The current service cost includes an allowance for administration expenses of 0.5% of payroll.

The contributions paid by the Employer are set by the Fund Actuary at each triennial actuarial valuation (the most recent being as at 31 March 2016), or at any other time as instructed to do so by the Administering Authority.

40. Contingent Liabilities

The Council has entered into indemnity agreements with financial institutions in respect of mortgages granted by the institutions on shared ownership sales of certain Council dwellings. At 31 March 2020, the total amount guaranteed was £1,002,204.

41. Nature and Extent of Risks arising from Financial Instruments

Key Risks

The Council's activities expose it to a variety of financial risks, the key risks are:

• Credit risk the possibility that other parties might fail to pay amounts due to the Council;

• Liquidity risk the possibility that the council might not have funds available

to meet its commitments to make payments;

• Re-financing risk the possibility that the Council might be requiring to renew a

financial instrument on maturity at disadvantageous interest

rates or terms;

• Market risk the possibility that financial loss might arise for the Council as

a result of changes in such measures as interest rates

movements.

Overall Procedures for Managing Risk

The Council's overall risk management programme focuses on the unpredictability of financial markets, and seeks to minimise potential adverse effects on the resources available to fund services.

Risk management is carried out by a central treasury team, under policies approved by the Council in the annual treasury management strategy. The Council provides written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash.

Credit risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers.

This risk is minimised through the Annual Investment Strategy, which is contained within the Treasury Management Strategy which is available on the Council's website.

Credit Risk management Practices

The Council's credit risk management practices are set out in the Annual Investment Strategy. With particular regard to determining whether the credit risk of financial instruments has increased significantly since initial recognition.

The Annual Investment Strategy requires that deposits are not made with financial institutions unless they meet identified minimum credit criteria, in accordance with the Fitch, Moody's and Standard & Poor's Credit Ratings Services. The Strategy also considers maximum amounts and time limits with a financial institution located in each category.

The credit criteria in respect of financial assets held by the Council are detailed below:

The Council uses the creditworthiness service provided by Link Asset Services. This service uses a sophisticated modelling approach with credit ratings from all three rating agencies – Fitch, Moody's and Standard and Poor's, forming the core element. However, it does not rely solely on the current credit ratings of counterparties but also uses the following as overlays:

- credit watches and credit outlooks from credit rating agencies
- CDS spreads to give early warning of likely changes in credit ratings
- sovereign ratings to select counterparties from only the most creditworthy countries

The full Treasury Management Strategy for 2019/20 was approved by Full Council on 27 February 2019 and is available on the Council's website.

Customers for goods and services are assessed, taking into account their financial position, past experience and other factors, with individual credit limits being set in accordance with internal ratings in accordance with parameters set by the Council.

The Council's maximum exposure to credit risk in relation to its investments in financial institutions of £97.9m cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Council's deposits, but there was no evidence at the 31 March 2020 that this was likely to crystallise.

Amounts Arising from Expected Credit Losses

The changes in loss allowance for investments at amortised cost during the year are as follows:

Credit Risk Exposure

The authority has the following exposure to credit risk at 31 March 2020:

Credit Rating	31 Marc Long-term £000		31 Marc Long-term £000	
AAA	-	9,614	-	6,898
AA+	-	-	-	-
AA	-	-	-	-
AA-	-	17,081	-	20,148
A+	-	4,934	-	1,517
Α	-	5,017	-	15,653
A-	-	-	-	10,530
BBB+	-	-	-	-
Unrated local authorities	10,000	51,241	-	58,194
Total investments	10,000	87,887	-	112,940

The Council has a substantial number of trade receivables. As the assets do not have a significant financing component, the loss allowance is to be based on lifetime expected credit losses. The Council uses a provision matrix based on historical observed default rates over the lifecycle of trade receivables, adjust for forward-looking estimates. The loss allowance is as follows:

Lifecycle stage	Gross carrying amount* £000	Lifetime expected credit losses* £000
Current	2,856	153
Less than 3 months	950	243
3 to 6 months	177	79
6 months to 1 year	254	167
More than 1 year	953	820
	5,190	1,462

^{*} Excluding statutory debtors - Council Tax / NNDR

Collateral – The Council initiates a legal charge on property where, for instance, clients require the assistance of social services but cannot afford to pay immediately. The total collateral at 31 March 2020 was £0.6m.

Liquidity risk

The Council manages its liquidity position through the risk management procedures above (the setting and approval of prudential indicators and the approval of the treasury and investment strategy reports), as well as through a comprehensive cash flow management system, as required by the CIPFA Treasury Management Code of Practice. This seeks to ensure that cash is available when needed.

The Council has ready access to borrowings from the money markets to cover any day to day cash flow need, and the PWLB and money markets for access to longer term funds. The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. There is therefore no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

The maturity analysis of financial assets, excluding the sums due from customers, is as follows:

	31 March	31 March
	2019	2020
	£'000	£'000
Less than 1 year	112,940	87,887
Between 1 and 2 years	-	10,000
Between 2 and 3 years	-	-
More than 3 years	-	-
Total	112,940	97,887

Refinancing and Maturity Risk

The Council maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer-term risk to the Council relates to managing the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer term financial liabilities and longer term financial assets.

The approved treasury indicator limits for the maturity structure of debt and the limits placed on investments placed for greater than one year in duration are the key parameters used to address this risk. The Council approved treasury and investment strategies address the main risks and the central treasury team address the operational risks within the approved parameters. This includes:

- monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt; and
- monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day to day cash flow needs, and the spread of longer-term investments provide stability of maturities and returns in relation to the longer term cash flow needs.

The maturity analysis of financial liabilities is as follows, with the maximum and minimum limits for fixed interest rates maturing in each period (approved by Council in the Treasury Management Strategy):

	Approved minimum limits	Approved maximum limits	Actual 31 March 2019 £'000	Actual 31 March 2020 £'000
Less than one year	0%	10%	-	-
Between 1 and 2 years	0%	10%	-	-
Between 2 and 5 years	0%	10%	23,000	36,000
Between 5 and 10 years	0%	30%	74,000	80,000
Between 10 and 20 years	0%	80%	163,325	144,325
Between 20 and 30 years	0%	15%	-	-
Between 30 and 40 years	0%	10%	-	-
Between 40 and 50 years	0%	10%	-	-
Total		<u>-</u>	260,325	260,325

Market risk

Interest rate risk

The Council is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in variable and fixed interest rates would have the following effects:

- Borrowings at variable rates the interest expense charged to the Comprehensive Income and Expenditure statement will rise;
- Borrowings at fixed rates the fair value of the borrowing will fall (no impact on revenue balances);
- Investments at variable rates the interest income credited to the Comprehensive Income and Expenditure statement will rise, and
- Investments at fixed rates the fair value of the assets will fall (no impact on revenue balances).

Borrowings are not carried at fair value on the balance sheet, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance.

The Council has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together Council's prudential and treasury indicators and its expected treasury operations, including an expectation of interest rate movements. From this Strategy a treasury indicator is set which provides maximum limits for fixed and variable interest rate exposure. The central treasury team will monitor market and forecast interest rates within the year to adjust exposures appropriately. For instance, during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns, similarly the drawing of longer term fixed rates borrowing would be postponed.

According to this assessment strategy, at 31 March 2020, if all interest rates had been 1% higher (with all other variables held constant) the financial effect would be:

	£'000
Increase in interest payable on variable rate borrowings	-
Increase in interest receivable on variable rate investments	(147)
Increase in Government grant receivable for financing costs	
Impact on Surplus or Deficit on the Provision of Services	(147)
Share of overall impact credited to the HRA	(222)
Decrease in fair value of loans and investments at amortised cost*	(166)
Decrease in fair value of fixed rate borrowing*	26,139

^{*}no impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure

The approximate impact of a 1% fall in interest rates would be as above but with the movements being reversed. These assumptions are based on the same methodology as used in the Note – Fair Value of Assets and Liabilities carried at Amortised Cost.

Price risk

The Council does not generally invest in equity shares.

Foreign exchange risk

The Council has no financial assets or liabilities denominated in foreign currencies. It therefore has no exposure to loss arising from movements in exchange rates.

42. Heritage Assets: Five-Year Summary of Transactions

There has been no transactions in the five-year period to March 31, 2020.

43. Restatement

These statements have been restated to reflect the removal of Resources portfolio, the costs have been reallocated to their new responsibility owner as shown below.

44. Going Concern

These accounts have been prepared on a going concern basis: there is an assumption that the Council's functions and services will continue in operational existence for the foreseeable future. The provisions in the Code of Practice in respect of going concern reporting requirements reflect the economic and statutory environment in which local authorities operate. These provision confirm that, as authorities cannot be created or dissolved without statutory prescription, they must prepare their financial statements on a going concern basis of accounting.

Local authorities carry out functions essential to the local community and are themselves revenue-raising bodies (with limits on their revenue-raising powers arising only at the discretion of central government). If an authority were in financial difficulty, the prospects are thus that alternative arrangements might be made by central government either for the continuation of the services it provides or for assistance with the recovery of a deficit over more than one financial year. As a result of this, it would not therefore be appropriate for local authority financial statements to be provided on anything other than a going concern basis. Accounts drawn up under the Code therefore assume that a local authority's services will continue to operate for the foreseeable future.

Even if the Council's assets were transferred to another public body, with perhaps no compensation, the continued use of the property for the public benefit means that the Council does not need to consider the restriction on its own ability to make use of the property from the going concern perspective. Therefore, the performance of local authority assets would not need to be impaired under these circumstances.

Current & historical financial position:

In February 2020, the Council set its Revenue Budget and Capital programme for 2020/21. As a consequence of the impasse over Brexit and the subsequent General Election, the Government implemented a one-year Spending Review for 2020/21. The Council, as with all other Local Authorities, received a one-year funding settlement for the year. After a number of years of austerity, which saw significant reductions in the Council's core funding, the one-year funding settlement provided an increase in funding and due to the lateness of the settlement resulted in a budgeted transfer to reserves of £1,169,550.

From March 2020, the Council identified some significant adverse Covid-19 impacts on finances for both the General Fund and HRA. The latest projections for 2020/21 forecast additional expenditure of £1.508m and lost income of £3.322m relating to Covid-19. The Council has received £2.038m in government grants towards the impact of Covid-19. In year savings and mitigations of £1.775m have also been identified. Overall, the forecast variance to budget at Quarter 2 Budget Monitoring was £0.881m for the year ended 31 March 2021 and this is being funded from existing reserves.

The Budget Strategy has identified a budget gap of £2.250m in 2021/22, though there is much uncertainty over future funding. To address this, future savings of £0.506m have been identified by Officers. Other savings are currently being consulted on and will be addressed in the Budget Report in February 2021. It is recognised that some of the savings will not be realisable from 1 April 2021, and so reserves will be used to fund the gap in the short term.

At 31 March 2020, there were unallocated reserves of £5.239m and earmarked reserves of £13.927m. The Budget Strategy has identified that £2.239m of unallocated reserves could be used to offset future budget gaps, and £0.604m of earmarked reserves could be unearmarked and transferred to a Covid-19 support reserve. This forecast maintains the general fund reserves above the minimum level set by the s151 of £3m.

Cash position

The Council had investments of £111.986m at 30 September 2020 of which £7.986m was available at less than one week notice. The Council has sufficient cash for its services throughout the medium term, and is also able to borrow short term for revenue purposes, though it is not expected for this to be necessary.

Conclusion:

The Council concludes that it is appropriate to prepare the financial statements on a going concern basis, and that no material impact exists relating to the Council's ability to continue to provide its statutory services, based on the review of the forecasted reserve and cash position 12 months from the date of approval of the financial statements.

Housing Revenue Account – Income and Expenditure Account

The HRA Income and Expenditure Statement shows the economic cost in the year of providing housing services in accordance with generally accepted accounting practices, rather than the amount to be funded from rents and government grants. Authorities charge rent to cover expenditure in accordance with regulations; this may be different from the accounting cost. The increase or decrease in the year, on the basis of which rents are raised is shown in the Movement on the HRA Statement.

2018/19 £'000			2019/20 £'000
	Expenditure

	Transfers to or (from) reserves	<u>-</u>
	(Increase) or decrease in year on the HRA	
(3,198)	Balance on the HRA at the end of the current year	(3,198)

Notes to the Housing Revenue Account

1. Housing Stock

The Council was responsible for over 7,900 dwellings in 2019/20. The stock at the year-end was made up as follows:

	31 March 2019	31 March 2020
Houses	4,299	4,347
Flats and Maisonettes	3,080	3,171
Bungalows	435	434
Hostels – lettable units	48	55
Number of rented units	7,862	8,007
Shared Ownership *	94	92
Total Stock	7,956	8,099

^{*}Shared ownership properties are owned in part by the Council. A rent, based on the proportion of the dwelling owned by the Council is charged to the occupier who is also responsible for maintaining the property.

The change in stock can be summarised as follows:

	31 March 2019	31 March 2020
Stock at 1 April	7,921	7,956
Less Sales	(41)	(31)
Demolitions/Disposals	(1)	-
Add New Build	75	165
Acquisitions	1	9
Transfer to/from GF	1	-
Stock at 31 March	7,956	8,099

2. Stock Valuation

The following statement shows the value of HRA assets in the Balance Sheet. Valuation of land and buildings are carried out externally by Wilks Head Eve Chartered Surveyors. The basis for valuation is set out in the Statement of Accounting Policies.

	31 March 2019	31 March 2020
	£'000	£'000
Property, Plant and Equipment:		
Council Dwellings	591,343	607,397
Other Land and Buildings	21,824	23,687
Vehicles, Plant & Equipment	77	198
Investment Properties	-	-
Intangible Assets		-
Total	613,244	631,282

Notes to the Housing Revenue Account (Continued)

The vacant possession value of dwellings within the Council's HRA, excluding hostels, as at 31 March 2020 was £1,830 million (£1,781 million at 31 March 2019). The difference between the vacant possession value and the balance sheet value of dwellings within the HRA show the economic cost to Government of providing council housing at less than open market rents.

3. Major Repairs Reserve (MRR)

Authorities are required to set up a Major Repairs Reserve, and to transfer into it a sum equal to depreciation. Authorities are permitted to make an additional transfer for an amount to the Major Repairs Reserve in excess of any charge for depreciation.

	31 March 2019 £'000	31 March 2020 £'000
Balance on MRR 1 April 2019	32,474	22,388
Transfer amount equal to depreciation	6,306	6,343
Additional transfer	13,655	14,408
Financing of capital expenditure	(30,047)	(27,264)
Balance on MRR 31 March 2020	22,388	15,875

Notes to the Housing Revenue Account (Continued)

4. Capital Expenditure

Capital expenditure on land, houses and other property within the Council's HRA during the financial year was as follows:

Opening Capital Financing Requirement Capital Investment		£'000 260,325
Enhancements to Council Housing	9,970	
Other Capital Expenditure	19,517	
Acquisition of Council Dwellings	2,606	
		32,093
Sources of Finance		
Usable Capital Receipts	(4,829)	
Revenue Contribution to Capital	-	
Major Repairs Reserve	(27,264)	
Government Grant	-	
		(32,093)
Closing Capital Financing Requirement		260,325
	£'000	£'000
A summary of capital receipts is as follows:		
Capital Receipts		
Sale of Dwellings	5,056	
Less Pooled Housing Capital Receipts	(1,032)	
		4,024
Miscellaneous HRA Land Sales		152
		4,176

5. Depreciation & Impairment of Non-Current Assets

Depreciation charges for council dwellings within the HRA amounted to £6,058,702. Depreciation on other HRA assets amounted to £283,766. No impairment charges were applied to HRA assets during the financial year, giving a total charge for depreciation and impairment losses of £6,342,468.

Notes to the Housing Revenue Account (Continued)

6. Rent Arrears

Rent arrears at the end of the financial year totalled £1,057,089 (£1,054,219 in 2018/19).

A provision of £848,194 (£726,934 in 2018/19) for bad or doubtful debts has been made in the balance sheet.

7. Adjustments between Accounting Basis and Funding Basis under Regulation

Note 9 of the main financial statements include details of the adjustments in relation to the HRA.

8. Transfer to or from reserves

The transfer to or from reserves is detailed within the Movement in Reserves Statement and Notes 10 and 25 of the main financial statements.

1. General

The Collection Fund is a statutory account administered separately by the Council as the billing authority for the area. The account reflects income due from the Council Tax payers, Non-Domestic Rate payers and the distribution of such sums.

The Local Government Finance Act 2012 introduced a business rates retention scheme that enabled local authorities to retain a proportion of the business rates generated in their area. The new arrangements for the retention of business rates came into effect on 1 April 2013. Business Rates collected are shared between Central Government (25%), Crawley Borough Council (20%) and West Sussex County Council (55%).

The year-end surplus or deficit on the Collection Fund must be distributed between billing and precepting authorities and Central Government in the following financial years. This in turn will reduce/increase the relevant authority's requirement from the Collection Fund in future years. Surpluses and deficits relating to Community Charge are retained by the Council to reduce its demand on the Collection Fund. The balance as at 31 March 2020 will be distributed as follows:

	2019-20		
	Business Rates £'000	Council Tax £'000	Total £'000
Central Government	(234)	-	(234)
Crawley Borough Council	(187)	19	(168)
West Sussex County Council	(418)	129	(289)
Sussex Police	_	17	17
	(839)	165	(674)

	2018-19		
	Business Rates £'000	Council Tax £'000	Total £'000
Central Government	54	-	54
Crawley Borough Council	44	47	91
West Sussex County Council	11	310	321
Sussex Police	-	40	40
	109	397	506

2. Income from Business Rates (NNDR)

Business Rates are set by the Government but collected locally by the Council. The amount collected is paid into a central pool administered by the Government after the deduction of an allowance towards collection costs. The Government specifies a uniform rate in the pound (50.4p for 2019/20) which is multiplied by the rateable value for each property to arrive at the charge per property for the year. For businesses that qualify for Small Business Rate Relief, the rate multiplier was 49.1p for 2019/20. At year-end, the total rateable value was £273 million.

Notes to the Collection Fund (Continued)

3. Income from Council Tax

This figure represents the total Council Tax due for the year compiled as follows:

	£'000
Council Tax benefits paid by the General Fund Balance payable by Council Tax Payers	17 63,017
Total Council Tax due for year	63,034

Each domestic property has been placed by the Inland Revenue into one of eight bands according to April 1991 valuations. The Council Tax due from each property varies according to the band it has been placed into. Band D has been assumed to be the national average with A having the lowest tax and H the highest. Statutory discounts relating to particular circumstances such as single occupancy reduce the Council Tax charged for relevant properties. An estimate of the Council Tax to be collected after allowing for discounts, changes in valuation, new properties and bad debts is made prior to the commencement of the year. This estimate is converted to a Band D equivalent number of properties described as the Council Tax Base. The figures for 2019/20 are shown in the following table.

	Number of Properties	Net Properties	Ratio to	Equivalent Number of
Band	(a)	(b)	Band D	Band D
Α	1,165	715	6/9	477
В	7,084	4,612	7/9	3,587
С	21,607	17,504	8/9	15,559
D	8,667	7,703	9/9	7,703
Е	3,771	3,496	11/9	4,273
F	2,233	2,125	13/9	3,069
G	461	428	15/9	713
Н	9	6	18/9	12
·	44,997	36,589	_	35,393
Less provision for	bad debts			(177)
Council Tax Base	;			35,216

<u>Notes</u>

- (a) Number of properties per October 2018 valuation list.
- (b) Net properties after allowing for discounts and other estimated charges.

To arrive at the Council Tax payable per band, the precepts and demands on the fund are divided by the estimated Council Tax Base to arrive at a Band D charge for the year. Other bands are calculated pro rata to Band D by the proportions shown in the table above.

The Band D charge for the year was £1,777.42

The Council Tax Surplus as at 31 March 2020 was £165,238.26

Glossary of Terms

Accounting Period

The timescale during which accounts are prepared. Local authority accounts have an overall accounting period of one year from 1st April to 31st March.

Accounting Policies

Accounting Policies are the specified principles, bases, conventions, rules and practices applied by the authority in preparing and presenting its financial statements.

Accounting Standards

A set of rules explaining how accounts are to be kept. By law, local authorities must follow 'proper accounting practices', which are set out in Act of Parliament and in professional codes and statements of recommended practice.

Accruals

The concept that income is accounted for when it is earned and expenditure when it is incurred, rather than when the money is received or paid.

Actuarial Gains and Losses

The changes in actuarial deficits or surpluses that arise because:

- (a) events have not coincided with actuarial assumptions made for the last valuation (experience gains or losses), or
- (b) the actuarial assumptions have changed.

Actuarial Valuation

Every three years the Actuary reviews the assets and liabilities of the Pension Fund and reports to the Council on the fund's financial position and recommended employers contribution rates.

Agency Arrangements

Services which are performed by or for another Authority or public body, where the agent is reimbursed for the cost of the work done.

Amortisation

A term that applies to Intangible Assets and Capital Grants. It is an accounting adjustment that spreads the cost of an asset over its useful life.

Amortised Cost

The amortised cost of a financial asset or a financial liability is

- the amount at which the financial asset or financial liability is measured at initial recognition (usually "cost").
- minus any repayments of principal
- minus any reduction for impairment or uncollectibility, and
- plus or minus the cumulative amortisation of the difference between that initial amount and the maturity amount.

Amortisation is calculated using the **effective interest method**.

Appropriations

The transfer of resources between various revenue reserves.

Area Based Grant

Area based grant is a non ring fenced general grant allocate directly to the Council.

Asset

An item having value to the authority in monetary terms. Assets are categorised as either current or fixed:

- A current asset will be consumed or cease to have material value within the next financial year (e.g. cash and stock);
- A fixed asset provides benefits to the Council and to the services it provides for a period of
 more than one year and may be tangible e.g. a school building, or intangible, e.g. computer
 software licences.

Asset Register

A record of Council assets including land and buildings, housing, infrastructure, vehicles equipment etc. This is maintained for the purpose of calculating capital charges that are made to service revenue accounts. It is updated annually to reflect new acquisitions, disposals, revaluations and depreciation.

Audit Commission

The body responsible for the appointment of external auditors to local authorities, co-ordinating audits throughout the country, and operates a quality control framework to ensure auditing standards are met.

Audit of Accounts

The audit of the accounts of an audited body comprises all work carried out by auditors in accordance with the Code to meet their statutory responsibilities under the Audit Commission Act 1998.

Available for Sale Financial Asset

An available for sale financial asset is a non derivative financial asset that is not classified as loans and receivables, held to maturity investments or financial assets at fair value through profit or loss.

Balances

These represent the accumulated surplus of revenue income over expenditure.

Balance Sheet

A statement of the recorded assets, liabilities and other balances at the end of the accounting period.

Baseline Funding Level

Set at the outset of the *retained business rates* scheme and based on collected business rates before commencement of the scheme. Increases each year in line with the small business non-domestic rate *multiplier*.

Benefit Payable during Employment

Benefits payable during employment covers:

- Short-term employee benefits, such as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees.
- Benefits earned by current employees but payable 12 months or more after the end of the reporting period, such as disability benefits.

Budget

An expression, mainly in financial terms, of the Council's intended income and expenditure to carry out its objectives

Capital Adjustment Account

The capital adjustment account provides a specific accounting mechanism to reconcile the different rates at which assets are depreciated under the Code and are financed through the capital controls system. Statute required that the charge to the General Fund Balance is determined by the capital control system.

Capital Expenditure

Expenditure on the acquisition of a fixed asset or expenditure which adds to the life or value of an existing fixed asset.

Capital Financing

This term describes the method of financing capital expenditure, the principal methods now being, capital receipts, the Major Repairs Reserve, government grants and revenue contributions.

Capital Programme

The capital schemes the Council intends to carry out over a specified period of time.

Capital Receipts

Monies received from the sale of assets, which may be used to finance new capital expenditure or to repay outstanding loan debt as laid down within rules set by Central Government.

Carrying Amount

The carrying amount is the amount at which an asset is recognise in the Balance Sheet after deducting any accumulated depreciation and accumulated impairment losses.

Cash Equivalents

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

Chartered Institute of Public Finance and Accountancy (CIPFA)

CIPFA is the main professional body for accountants working in the public service. It draws up the Accounting Code of Practices and issues professional guidance that is used to compile these accounts.

Collection Fund

The Collection Fund is a separate account kept by every billing authority into which Council Tax and Business Rates are paid.

Community Assets

Assets that the Council intends to hold in perpetuity, that have no determinable useful life and that may have restrictions on their disposal. Examples of community assets are parks and historical buildings.

Comprehensive Income and Expenditure Statement

The comprehensive income and expenditure statement shows the accounting costing the year of providing services in accordance with generally accepted practices, rather than the amount to be funded from taxation.

Consistency

The concept that the accounting treatment of like items within an accounting period and from one period to the next are the same.

Contingent Asset

A contingent asset is a possible asset arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the Council's control.

Contingent Liabilities

A contingent liability is either:

- a possible obligation arising from past events whose existence will be confirmed only by the
 occurrence of one or more uncertain future events not wholly within the Council's control; or
- a present obligation arising from past events where it is not probable that a transfer of economic benefits will be required, or the amount of the obligation cannot be measured with sufficient reliability.

Corporate and Democratic Core

These are the activities that a local authority engages in specifically because it is a democratically elected division making body. These are over and above what a private company would have if it were providing similar services. These costs are not apportioned to services but are shown separately. Examples of costs are Councillors' allowances, committee support and time spent by professional officers in giving policy advice.

Creditors

Amounts owed by the Council for goods and services provided for which payment has not been made at the end of the financial year.

Current Asset

A current asset is an asset that is intended to be sold within the normal operating cycle; the asset is held primarily for the purpose of trading or the Council expects to realise the asset within 12 months after the reporting date.

Current Liability

A current liability is an amount which will become payable or could be called in within the next accounting period; examples are creditors and cash overdrawn.

Current Service (Pensions) Cost

The increase in the present value of a defined benefit scheme's liabilities expected to arise from employee service in the current period.

Curtailment

Curtailments will show the cost of the early payment of pensions benefits if any employee has been made redundant in the previous financial year.

Debtors

Sums of money due to the Council but not received at the end of the financial year.

Deferred Capital Receipts

This represents capital income still to be received. These transactions arise when fixed assets are sold and the amounts owed by the purchasers are repaid over a number of years. The balance is reduced by the amount repayable in any financial year.

Deferred Liabilities

Liabilities which by arrangement are payable beyond the next year at some point in the future or paid off by an annual sum over a period of time. The main example of this is outstanding finance lease obligations.

Defined Benefit Scheme

A pension or other retirement benefit scheme other than a defined contribution scheme. Usually, the scheme rules define the benefits independently of the contributions payable, and the benefits are not directly related to the investments of the scheme. The scheme may be funded or unfunded (including notionally funded).

Defined Contribution Scheme

A pension or other retirement benefit scheme into which an employer pays regular contributions fixed as an amount or as a percentage of pay and will have no legal or constructive obligation to pay further contributions if the scheme does not have sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

Depreciation

A provision made in the accounts to reflect the value of assets used during the year. Depreciation forms part of the capital charge made to service revenue accounts.

Derivatives

Derivatives are securities or financial instruments whose value is derived from another, underlying asset.

Earmarked Reserves

These are amounts set aside for a specific purpose or a particular service, to meet future liabilities, for which it is not appropriate to establish provisions.

Effective Interest Method

This is a method of calculating the amortised cost of a financial asset or financial liability, and of allocating the interest income or interest expense over the relevant period. The effective interest rate in a financial instrument is the rate that exactly discounts the cash flows associated with the instrument (either through to maturity or to the next re-pricing date) to the net carrying amount at initial recognition, i.e. a constant rate on the carrying amount. The effective interest rate is sometimes termed the level yield to maturity (or the next re-pricing date), and is the internal rate of return of the financial asset or liability for that period.

Equity

The Council's value of total assets less total liabilities.

Events after Balance Sheet Date

Events after the balance sheet date are those events, favourable or unfavourable, that occur between the balance sheet date and the date when the Statement of Accounts is authorised for issue.

Exceptional Items

Material items which derive from events or transactions that fall within the ordinary activities of the Council and which need to be disclosed separately by virtue of their size or incidence to give fair presentation of the accounts.

Expected Rate of Return on Pensions Assets

For a funded defined benefit scheme, the average rate of return, including both income and changes in fair value but net of scheme expenses, expected over the remaining life of the related obligation on the actual assets held by the scheme.

Extraordinary Items

Material items, possessing a high degree of abnormality, which derive from events or transactions that fall outside the ordinary activities of the Council and which are not expected to recur. They do not include exceptional items, nor do they include prior period items merely because they relate to a prior period.

Fair Value

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Finance Lease

A finance lease transfers all of the risks and rewards of ownership of a fixed asset to the lessee and such assets have been valued and included within Fixed Assets in the Balance Sheet.

Financial Instrument

Any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another. The term covers both financial assets and financial liabilities, from straightforward trade receivables (invoices owing) and trade payables (invoices owed) to complex derivatives and embedded derivatives.

Fixed Assets

Tangible assets that yield benefits to the local authority and the services it provides for a period of more than one year.

General Fund

The General Fund is the main revenue account of the Council which provides the finance for all of its services other than council housing (e.g. leisure services, environmental services etc).

Going Concern

Going Concern defines that the functions of the Council will continue in operational existence for the foreseeable future.

Government Grants

Grants made by the government towards either revenue or capital expenditure in return for past or future compliance with certain conditions relating to the activities of the Council. These grants may be specific to a particular scheme or may support the revenue spend of the Council in general.

Heritage Assets

Heritage assets are those assets that are intended to be preserved in trust for future generations because of their cultural, environmental or historical associations.

Historic Cost

The actual cost of an asset in terms of past consideration as opposed to its current value.

Housing Benefits

A system of financial assistance to individuals towards certain housing costs administered by authorities and subsidised by Central Government.

Housing Revenue Account

Local authorities are required to maintain a separate account - the Housing Revenue Account - which sets out the expenditure and income arising from the provision of council housing.

Impairment

A reduction in the value of a fixed asset to below its carrying amount on the balance sheet.

Income

Amounts that the Council receives or expects to receive from any source, including fees, charges, sales and grants.

Intangible Assets

Fixed assets that do not have physical substance, e.g. computer software licences

Interest Cost (Pensions)

The expected increase during the year in the present value of the scheme liabilities because the benefits are one year closer to settlement.

Interest on pension scheme liabilities

The expected increase during the period in the present value of the scheme liabilities because the benefits are one year closer to settlement.

Internal control

The whole system of controls, financial and otherwise, that is established in order to provide reasonable assurance of effective and efficient operations, internal financial control and compliance with laws and regulations.

International Financial Reporting Standards (IFRS)

International Financial Reporting Standards advise the accounting treatment and disclosure requirement of transactions so that the Council's accounts present fairly the financial position of the Council. IFRS applies to local authorities with effect from 1 April 2010.

Investments (Non-Pensions Fund)

A long-term investment is an investment that is intended to be held for use on a continuing basis in the activities of the Council. Investments should be so classified only where an intention to hold the investment for the long term can clearly be demonstrated or where there are restrictions as to the investor's ability to dispose of the investment.

Investments, other than those in relation to the pensions fund, that do not meet the above criteria should be classified as current assets.

Investments (Pensions Fund)

The investments in the present value of the scheme liabilities related to employee service in prior periods arising in the current period as a result of the introduction of, or improvement to retirement benefits.

Investment Property

Investment property is property (land or a building) held solely to earn rentals or for capital appreciation.

LABGI - Local Authority Business Growth Incentive Grant

A Government grant payable to Councils for the growth, over a year, in the value of Non-domestic Rateable values in the area.

LASAAC

Local Authority (Scotland) Accounts Advisory Committee.

Levy

Applied to the surplus of *retained business rates* over the *baseline funding level*. The levy rate for the Council is 50%.

Liability

A liability is where the Council owes payment to an individual or another organisation.

- A current liability is an amount which will become payable or could be called in within the next accounting period, e.g. creditors or cash overdrawn.
- A deferred liability is an amount which by arrangement is payable beyond the next year at some point in the future or to be paid off by an annual sum over a period of time.

Liquid Resources

Current asset investments that are readily disposable by the Council without disrupting its business and are either:

- readily convertible to known amounts of cash at or close to the carrying amount; or
- traded in an active market.

Major Repairs Reserve

The major repairs reserve controls an element of capital resources required to be used on Housing Revenue Account (HRA) assets or for capital financing purposes.

Materiality

The concept that the Statement of Accounts should include all amounts which, if omitted, or misstated, could be expected to lead to a distortion of the financial statements and ultimately mislead a user of the accounts.

Movement in Reserves Statement

The movement in reserves statement shows the movement in the year on the different reserves held by the Council, analysed into usable reserves and other reserves.

Multiplier

The business rates multiplier when multiplied by the rateable value of a property determines a ratepayer's business rate bill. There are two multipliers – one for small businesses and one for larger businesses. These are set nationally. The small business rate multiplier is uprated annually by the retail price index (RPI) (although exceptionally a less increase may be imposed) and the other multiplier adjusted accordingly.

National Non-Domestic Rate (NNDR)

The rates paid by businesses. The amount paid is based on the rateable value set by Valuation Office Agency multiplied by a rate in the £ set by the government which is the same throughout the country.

Negative Subsidy

If the Housing Revenue Account subsidy produces a result, which assumes that the Council's income is higher than its expenditure, a 'Negative Subsidy' situation arises. In this case the Council must pay an amount equivalent to the notional surplus, from its Housing Revenue Account to the government.

Net Book Value

The amount at which fixed assets are included in the balance sheet, i.e. their historical costs or current value less the cumulative amounts provided for depreciation.

Non-Distributed Costs

These are overheads for which no user now benefits and as such are not apportioned to services.

Net Realisable Value

The open market value of the asset less the expenses to be incurred in realising the asset.

Operating Lease

A lease where the ownership of the fixed asset remains with the lessor and the annual rent is charged to the relevant service account.

Operational Assets

Fixed assets held and occupied, used or consumed by the Council in the pursuit of its strategy and in the direct delivery of those services for which it has either a statutory or discretionary responsibility.

Other Comprehensive Income and Expenditure

Other comprehensive income and expenditure comprises items of expense and income (including reclassification adjustments) that are not recognised in the Surplus or Deficit on the Provision of Services as required or permitted by the Code. Examples include changes in the revaluation surplus; actuarial gains and losses on defined benefit plans; and gains and losses on the re-measuring available-for-sale financial assets.

Outturn

Actual income and expenditure in a financial year.

Past Service Costs

The increase in the present value of the scheme liabilities related to employee service in prior periods arising in the current period as a result of the introduction of, or improvement to retirement benefits.

Pension Scheme Liabilities

The liabilities of a defined benefit scheme for outgoings due after the valuation date. Scheme liabilities measured using the projected unit method reflect the benefits that the employer is committed to provide for service up to the valuation date.

Pooling Arrangements (Capital Receipts)

Since 1st April 2004, 75% of 'Right to Buy' capital receipts have to be paid to the Government; the remaining element can be used to finance capital expenditure. A proportion of other housing receipts must also be paid over unless it is intended to use the receipts for affordable housing or regeneration projects.

Post Balance Sheet Events

Events arising after the balance sheet date should be reflected in the statement of accounts if they provide additional evidence of conditions that existed at the balance sheet date and materially affect the amounts to be included.

Precepts

Amounts which the Borough Council is required to raise from Council Tax on behalf of other authorities.

Property, Plant and Equipment

Property, plant and equipment are tangible assets (i.e. assets with a physical substance) that are held for use in the production or supply of goods and services, for rental to others, of for administrative purposes, and which are expected to be used during more than one period.

Provision

An amount set aside to provide for a liability which is likely to be incurred but the exact amount and the date on which it will arise is uncertain.

Prior Year Adjustment

Material adjustments applicable to prior years arising from changes in accounting policies or from the correction of fundamental errors. This does not include normal recurring corrections or adjustments of accounting estimates made in prior years.

PWLB (Public Works Loans Board)

The PWLB is part of the Government Debt Management Organisation.

Rateable Value

The annual assumed rental value of a hereditament (normally a building), which is used for NDR purposes.

Related Parties

There is a detailed definition of related parties in IAS 24. For the Council's purposes, related parties are deemed to include the Council's members, the Chief Executive, its Directors and their close family and household members.

Related Party Transactions

The Code requires the disclosure of any material transactions between the Council and related parties to ensure that stakeholders are aware when these transactions occur and the amount and implications of such.

Reserves

A reserve is an amount set aside for a specific purpose in one financial year and carried forward to meet expenditure in future years.

Residual Value

The net realisable value of an asset at the end of its useful life.

Retained Business Rates

From 1 April 2013, collected business rates are shared between Central Government (50%), Billing Authority (40%) and County Council (10%). Retained business rates are the Council's share less the *tariff*.

Retirement Benefits

All forms of consideration given by an employer in exchange for services rendered by employees that are payable after the completion of employment. Retirement benefits do not include termination benefits payable as a result of either (i) an employer's decision to terminate an employee's employment before the normal retirement date or (ii) an employee's decision to accept voluntary redundancy in exchange for those benefits, because these are not given in exchange for services rendered by employees.

Revenue Expenditure

Day to day expenses, mainly salaries and wages, general running costs and debt charges.

Revenue Expenditure funded from Capital under Statute

Revenue expenditure funded from capital under statute is revenue expenditure incurred that may be funded from capital resources under statutory provisions but does not result in the creation of a fixed asset. Items generally include grants, advances and financial assistance to others, expenditure on property not owned by the Council and amounts directed under section 16(2) of Part 1 of the Local Government Act 2003.

Revenue Support Grant

Central Government Grant towards the cost of local authority services.

Right to Buy

The council is legally required to sell council homes to tenants, at a discount, where the tenant wishes to buy their home. The money received from the sale is a capital receipt of which only 25% can be spent on capital expenditure. The remaining 75% must be paid over to the government under pooling arrangements.

Safety Net

Applies if the Council experiences a decrease in its business rates revenue. This protection limits losses to 7.5% of the Council's *baseline funding level*.

Scheme Liabilities

The liabilities of a defined benefit scheme for outgoings due after the valuation date. Scheme liabilities measured using the projected unit method reflect the benefits that the employer is committed to provide for service up to the valuation date.

Service Reporting Code of Practice (SeRCOP)

SeRCOP sets the financial reporting guidelines for local authorities. It supplements the principles and practice set out in the Code of Practice on Local Authority Accounting (known as the Code), by establishing practice for consistent reporting. It provides guidance in three key areas:

- The definition of total cost
- Trading accounts
- Service expenditure analysis

Soft Loan

A loan made interest free or at a rate less than the market rate, usually for policy reasons. Such loans are often made to individuals or organisations that the Council considers benefits the local population.

SOLACE

Society of Local Authority Chief Executives.

Specific Government Grants

Central Government financial support towards particular services which is 'ring fenced', i.e. can only be spent on a specific service area or items.

Stocks

Items of raw materials and stores a Council has procured and holds in expectation of future use. Examples are consumable stores, raw materials and products and services in intermediate stages of completion.

Tariff

Calculated at the outset of the *retained business rates* scheme and increased each year by the retail price index (RPI).

Temporary Borrowing

Temporary borrowing is a sum of money borrowed for a period of less than one year.

Transfer Payments

A payment to a person or organisation that does not result in a reciprocal benefit or service being provided to the Council. The main examples are housing and council tax benefit. In most cases the cost of transfer payments is either fully or partially reimbursed by Central Government.

Usable Capital Receipts

Holds the proceeds of fixed assets sales available to meet future capital investment. These capital receipts are held in this reserve until such time they are used to finance capital expenditure.

VAT

Value-added tax: a tax levied on the difference between the cost of materials and the selling price of a commodity or service.

Write-Offs

Income is recorded in the Council's accounts on the basis of amounts due. When money owing to the Council cannot be collected the income is already showing in the accounts and has to be reduced or written off.
