To reflect the emerging national Optional Requirements in Part M of the Building Regulations in line with the DCLG Consultation October/November 2014.
MM005	30	Policy CH5	Amend the first paragraph of the Policy and insert new wording into the Policy as follows: The minimum size for each dwelling should be based on the following internal and external space standards, <u>until these are superseded by the adoption of Nationally Described Space Standards</u> . <u>Private amenity space should adhere to the following external space standards</u> .	To reflect the emerging Nationally Described Standards in line with the DCLG Consultation October/November 2014 and to respond to Regulation 20 representations made by HBF.
MM006	30	Policy CH5	Insert the following sentence after the minimum internal floorspace standards table: <u>New dwellings should have a minimum floor to ceiling height of the main living space of 2.5m for at least 75% of the Gross Internal Area. In exceptional circumstances, this may not be appropriate given the local design context</u> .	To reflect the emerging Nationally Described Standards in line with the DCLG Consultation October/November 2014.
MM007	31	Policy CH6	Amend the Policy by separating the paragraph and include minor additional wording: Landscape proposals for new residential development should contribute to the character and appearance of the town by including at least one new tree for each new house <u>dwelling, of an appropriate species and planted in an appropriate location</u> .	For clarification.

Main Modification Ref.	Page	Para	Change	Reason
			Where development proposals would result in the loss of trees, applicants must identify which trees are to be removed and <u>replaced in order to</u> mitigate for the visual impact resulting from the loss of the tree canopies. Proposals must demonstrate that the number of replacements accords with the following requirements:	
MM008	33	Policy CH7	Amend the second sentence of the first paragraph of the Policy as follows: All <u>Development proposals that affect this role should demonstrate the visual impact of the proposals and should</u> will be required to protect and/or enhance areas of structural landscaping, <u>where appropriate</u> and to demonstrate the visual impact of the proposals on these areas as part of the planning application submission.	For clarification.
MM009	40	Policy CH12	Insert the following additional new wording into the third paragraph of the Policy and separate into bullets as follows: If, in exceptional circumstances, a heritage asset is considered to be suitable for loss or replacement, <u>and it has been demonstrated its site is essential to the development's success</u> , proposals will need to demonstrate how they have recorded the heritage asset: <u>i. in line with a written scheme of investigation submitted to, and approved by, Crawley Borough Council; or</u> <u>ii. in the case of standing structures,</u> to a minimum of English Heritage recording Level 2, and demonstrate that the site is essential to the development's success.	To respond to Regulation 20 representations received from WSCC.

			<u><i>As identified within the Crawley Retail Capacity and Impact Study (2013), there is capacity to deliver up to 26,650 square metres of comparison (non-food) retail development up to 2030. This represents a modest increase in floorspace, and is significantly less than levels previously envisaged in the Core Strategy (2008) at Town Centre North, which is no longer being progressed. Any retail growth up to this level is not of a scale that would change the market shares of expenditure attracted from the wider catchment area, and is, therefore, unlikely to have any significant negative retail impact on other town centres.</i></u>	
MM018	61 - 62	Policy EC7	Make the following amendments to the wording in the Policy: a) the need for the <u>proposed</u> development... ...In assessing the impact of out-of-centre retail development proposals under part b), a retail impact assessment will be required to support proposals for 2,500sqm net <u>gross</u> floorspace or greater. The existing out of town centre retail locations at County Oak and London Road Retail Parks have an established retail warehouse function and should remain the focus for any out of <u>centre town</u> retail proposals subject to satisfying the sequential assessment and impact testing as outlined above .	For clarification and to update in light of new guidance in the national Planning Practice Guidance.
MM019	62	Para. 5.61	Insert the additional information from the evidence base into the supporting text: <i>...These studies recognise that available retail expenditure <u>of up to 26,650sqm</u> over the p<u>P</u>lan period is finite, and that available retail capacity...</i>	To respond to Regulation 20 representations received and reflect the evidence for clarification.

MM021	69	Para. 6.15	<p>Replace the paragraph text:</p> <p>The 2012 SHMA concludes that despite current economic conditions, the outlook over the medium term is more optimistic and that recovery is expected to be led by London and the South East region. A likely continued under-supply of new homes in the short to medium term will help to stimulate market recovery with demand focused towards traditional housing stock and less focused on flats. Analysis of the entire Housing Register indicates a predominant need for two-bed properties with one and three bed properties in similar demand. However, when compared to Mid Sussex and Horsham districts, the borough has the highest proportional requirements for larger three and four bedroom affordable properties. <u>The 2014 SHMA reaffirms the importance of Northern West Sussex as a single Housing Market Area centred on Crawley and Horsham and extending towards Haywards Heath and Burgess Hill to the south and Horley to the north. The Assessment concludes that the housing market is beginning to recover from the economic recession with increased demand, house price recovery and consumer confidence. To reflect updated evidence base of the Trajectory with its categorisation from being 'developable' to being 'suitable, but undeliverable' in the SHLAA.
MM036	76	6.51	Amend the text as follows: The council's update to the Strategic Housing Market Assessment: the Northern West Sussex Housing Market Area Affordable Housing Need Model Update (2012-2014 update) , identifies that Crawley has the highest proportional requirements for one and two and three-bedroom affordable properties , for those households in greatest need ('reasonable preference'), comprising 43% two-bedrooms and 30% three-bedrooms. However, housing need across the whole Housing Register reveals that up to 45% require one-bedroom properties with 32% requiring 2-bedroomed accommodation.	To reflect updated evidence.
MM037	76 – 77	Policy H3	Amend reference to the evidence base document: All housing development should provide a mix of dwelling types and sizes to address the nature of local housing needs, as evidenced in the 2012 Strategic Housing Market Assessment 2014 Affordable Housing Needs Model SHMA Update and subsequent updates. The appropriate mix of house types and sizes for each site will depend upon the size and characteristics of the site and the viability of the scheme. MM038	77	6.53 – 6.54	<p>Amend the percentages in the supporting text as follows: <i>The council will seek to achieve a mix of dwelling sizes to meet local need and demand. The Affordable Housing Needs Model (2014 SHMA Update) Strategic Housing Market Assessment (September 2012) has found that the demand for new homes for those households in local housing need falls predominantly towards the smaller one-bedroom and two-bedroom units, with the recommended mix across all priority bandings and affordable tenures being reasonable preference in the borough is:</i></p> <ul style="list-style-type: none"> • 18% 25% 1 bedroom • 43% 50% 2 bedroom • 30% 20% 3 bedroom • 9% 5% 4+ bedroom <p>6.54 The SHMA has also identified the sizes of affordable housing required to meet the needs of those households considered to be in 'reasonable preference' (excluding transfers). This indicates that 18% of future affordable housing provision should be one-bedroom units with 43% two-bedroom and 30% three-bedroom units, and only 9% provision of four and five-bedroom units. This preferred mix has a natural bias towards meeting the needs of those in reasonable preference, and particularly for rental tenure, while the intermediate tenure and private market rental units may err towards the higher ratio of one and two-bedroom units.</p>	To reflect updated evidence.
