uricket Usage

	Desite and due to leaf, of an illing and toilets. The only sport
1	Resitricuted due to lack of pavillion and toilets. The only sport that we can regularly have on loppets is junior football as
	customers are used to not having those facilities. Plenty of other sites nearby, Gainsborough Rd, Tilgate Park( dog wlaking and
	play), Southgate and Furnace Green PF and conservation area. Land locked area with no other provision really providing a field
Loppets Road	site.
	Nestled between Furnace Green and Maidenbower. Sites is out of the way to edge of neighbourhood with limited access by public
	transport. Lacks character and identity. Generally only used by FG residents, but there is limited access to other sites nearby.
Furnace Green	Nearest is Gainsborough and Tilgate Park
	A large diverse site accommodating both formal and informal sport, and play provision. The site has been used for community
	events such as relay for life and football tornaments. The
	conservation area is an SNCI site and managed mostly by Gatwick Green Space. Model aeroplane club use the site
	regularly. There is limited access to other nearby sites nearest open space is Worth park gardens. Demand for site is likely to
Grattons	increase if the North East Sector development progresses.
	Site is isolated from main access roads with residents as main users. Site is open, flat and uninviting of primary value to local
Knepp	dog walkers and play area users.
	A disconnected site with with two fields and Three Bridges Football club seperating them. The site also has the TB Cricket
	club who lease their pitch one of the few self managed sites in the
	town. The site suffers from significant antisocial behaviour connected to homelessness population in the area. However
	residents participated in the design and location of the new play area. The car park is constantly full with commuters preventing
Three Bridges (Jubilee Field)	park users from accessing the site by car. Open plan site well overlooked by road users and houses. Close
	to the town centre which provides a good footfall of useage.
	However there are few open spaces nearby which makes it a valuable site for the community. The open space provides direct
Northgate	access to the bluebell walk and the main footpath into the town centre.
	Large diverse site accommodating most sports including an ADPG, Bowls, Cricket Club, Allotments. Interest from Tennis
	Club to permanently lease the courts. The site is starting to be
	used more for local community event the possibility of being the site for the Towns first BMX track. Site is very close to County
	Oak and the Manor Royal industrial estate, so could be scope for more facilities to support the businesses here. Particularly as
	open space provision within the industrial estate area is diminishing. The site however is very isolated compared with
	other sites within the town and access is poor through a minor
	road with lots of parked cars. There is plenty of spare underused space on this site as there a a number of adjoining fields which
Cherry Lane	could be utilised for other activities without negative impact on the quality of provision
	Site primarily for the use of Crawley Rugby club and also an SSSI which is well managed. The area also accommodates a privately
Miller aller the	run bowls club. Located on the outskirts of the town, easily
Willoughby Fields	accessible, but quite remote and isolated in parts. Old site covered by Ifield conservation area. Part of which is
	classified as common land. Ifield cricket club and Chase Fitness are currently lessees. Site has historical significance with an old
	mill adjacent to the main sports club buildings. Site also has a recently renovated and enhanced play area. New housing
	developments nearby have increased the footfall and improved
Ifield Green	visibility and secruity of the site. Summarised as a field seperated by a single line of trees and an
	underused play area which is also regularly flooded. However the football pitches are very popular as they are level and well
	drained. Although close to a residential area the site appears isolated as it is surrounded by hedges and has the main A23
Ewhurst	running alongside the eastern side of the site.
	One of the best parks/playing fields because it is able to serve
	both these puposes. Of high value to residents who do not have easy access to other spaces within the town centre area. There
	is a wide diversity of users which serves the need of the local community well. These include, bowls, tennis, cricket, football,
	social clubs (Ram, Labour and RHS). There has been recent
	consultation undertaken which has identified that the site is valued for it's quiet tranquility. However the play requires improvement.
	The car park has also undergone major renovation to improve the
West Green	
West Green	drainage and surface quality.
West Green	One of the best parks with a unique sports provision with the towns only pitch and putt. There is also a model railway and club
